WHEREAS it is expedient to prohibit the importation, manufacture and sale of matches made with white phosphorus; It is hereby enacted as follows :—

Short title, extent and commencement.

1. (*1*) This Act may be called the White Phosphorus Matches Prohibition Act, 1912.

(*2*) It extends to the whole of British India;

(*3*) It shall come into force on the first day of July 1913, with the exception of section 6 which shall come into force on the first day of July 1914.

Definition.

2. In this Act, "white phosphorus" means the substance commonly known as white or yellow phosphorus.

Prohibition of importation by addition to section 18, Act VIII of 1878.

3. To section 18 of the Sea Customs Act, 1878, the following clause shall be added, namely :— VIII of 1878.

"(*g*) matches made with white phosphorus."

Prohibition of use of white phosphorus in manufacture of matches.

4. (*1*) No person shall use white phosphorus in the manufacture of matches.

(*2*) Any person who uses, or permits the use by any person under his control of, white phosphorus in the manufacture of matches, shall be punishable with fine which may extend to two hundred rupees.

253LD

Power of Inspector of Factories to take samples of material used in manufacture.

XII of 1911.

5. (1) Every person who manufactures matches shall allow an Inspector of Factories appointed under the Indian Factories Act, 1911, at any time to take for analysis sufficient samples of any material in use, or mixed for use, in such manufacture:

Provided that any such person may at the time the sample is taken, and on providing the necessary appliances, require the Inspector to divide the sample so taken into two parts, and to mark, seal and deliver to him one part.

(2) Any person who refuses to permit any such Inspector of Factories as aforesaid to take a sample in accordance with the provisions of sub-section (1) shall be punishable with fine which may extend to two hundred rupees.

Prohibition of sale.

6. (1) No person shall sell, or offer or expose for sale, or have in his possession for the purposes of sale, any matches made with white phosphorus.

(2) Any person who contravenes the provisions of sub-section (1) may, on complaint to a Magistrate, be ordered to forfeit any such matches in his possession, and any matches so forfeited shall be destroyed or otherwise dealt with as the Magistrate may direct.

STATEMENT OF OBJECTS AND REASONS.

The object of this Bill is to prohibit the importation into, and the manufacture and sale in, British India of matches which contain white (yellow) phosphorus.

The provisions of the Bill follow, so far as is necessary and practicable, the lines of the English White Phosphorus Matches Prohibition Act, 1908 (8 Edw. 7, ch. 42).

The Bill was introduced into the Council of the Governor-General for making Laws and Regulations on the 22nd September 1911. At the Council meeting of the 1st March 1912, however, objections were raised to its passage on the ground that the necessity for the proposed legislation had not been substantiated; and it was decided to postpone the consideration of the Bill for one year and to obtain, in the meantime, additional information regarding (1) the accuracy or otherwise of the statement that modern methods of manufacture have eliminated the danger of necrosis, and (2) the availability of suitable brands of non-phosphorus strike-anywhere matches for use in India, having in view the climatic conditions and the importance of not increasing the cost of matches to consumers of the lower classes. The Bill was accordingly withdrawn on the understanding that it would be re-introduced in the cold weather of 1913.

With reference to the first point the following facts have been ascertained regarding the continued occurrence of necrosis in Sweden, Norway, Belgium and the United States of America, which have not joined the Berne International Convention and which profess to have adopted the latest and most improved methods of manufacture. In Sweden, between the years 1902 and 1910, as shown by the official reports of the Inspectors of match factories in that country, there were 16 admitted cases of necrosis besides a number of doubtful cases. In 1905 there were no cases, and the Inspectors' reports announced the extinction of the disease; but in 1906 there were no less than seven cases, and there was one case in each of the years 1908 to 1910. In Norway, the number of persons exposed to poisonous fumes in match manufacture is only about 250. In their report for 1907-08, the Factory Inspectors in that country stated that it might be assumed that the precautionary measures adopted, the introduction of new systems of ventilation, and the observance of the special regulations had resulted in the complete elimination of the disease. Notwithstanding, there was a case of necrosis in each of the years 1909 and 1910. In Belgium, where four factories use white phosphorus, there was a case of necrosis in 1908, and the Belgian Annual Report on Factory Inspection in 1909 discloses the fact that there were two cases of phosphorus poisoning in that year in spite of strict observance of the required precautions. In the United States of America, in a joint investigation recently undertaken by the American Bureau of Labour and the American Section of the International Association of Labour Legislation, 15 cases of phosphorus necrosis were discovered by Federal officials in an investigation covering 15 out of the 16 American match factories; and subsequent personal enquiries conducted by the President of the American Section indicated that for four of these factories alone the number should have been increased to 80. In view of these and similar disclosures an Act was passed in the United States of America on the 9th April 1912 imposing a tax on white phosphorus matches and prohibiting their import and export. The facts stated above show that the latest information available does not substantiate the assertion that improved methods of manufacture are sufficient to stamp out necrosis.

The Vienna Medical Society in 1908, also, in reporting after detailed enquiry that about 20 deaths from phosphorus necrosis occurred annually in Austria, declared that the best regulations fail to stamp out the disease. The experience of the United Kingdom was similar, the Chief Inspector of Factories in England reporting in June 1910 that the absence of known cases of necrosis is itself inconclusive, the cases which occurred in Great Britain being (at first) ascertained with difficulty.

That a similar view is held in almost all civilized countries is indicated by the list of countries which have joined the Convention or have, without joining it, effectually controlled the manufacture of matches. The European countries adhering to the Convention are France,

Germany, Holland, Denmark, Switzerland, Luxembourg, Italy, Finland, Spain and the United Kingdom. In Austria, an Act prohibiting the use and manufacture of white phosphorus matches was passed in July 1909, and in Hungary and Mexico similar Acts were passed in 1912. In Russia, as now in the United States of America, a differential tax is imposed on white phosphorus matches, and in the latter country, as already stated, their import and export is prohibited. In Greece, Portugal, Roumania, Bulgaria, Servia and Venezuela the manufacture of matches is a State monopoly and is therefore under control, and in Sweden the importation and consumption of white phosphorus matches is prohibited though their manufacture for export is allowed. The Convention has also been joined by almost all the French, Dutch and British Colonies, including the Union of South Africa and New Zealand. Australia also has prohibited the importation of white phosphorus matches since December 1908, and Tasmania has prohibited both their sale and manufacture.

With regard to the second question, it has been ascertained that a large proportion of the brands of strike-anywhere matches in use in the United Kingdom do not contain white phosphorus. The results of the official tests made in England by the Board of Customs and Excise for the purpose of distinguishing white phosphorus matches, up to December 1911, showed that, out of 271 brands of strike-anywhere matches tested, only eleven were found to contain white phosphorus. Figures have been obtained from the Indian Custom Houses of the imports of matches during the year 1911-12. The proportion of strike-anywhere matches imported was *nil* in Rangoon, 25 per cent at Calcutta, 51·8 per cent at Karachi, 60 per cent at Bombay, and 76·8 per cent at Madras. All these, with the exception of half a dozen brands from Austria, were found by chemical test to contain white phosphorus. The fact that the use of white phosphorus matches is smaller in Bengal than in other parts of India, and has for years been non-existent in Burma without causing any practical inconvenience, goes to disprove the assertion that the white phosphorus match is the only one which is suitable for a damp climate such as India in the monsoon, Bengal and Burma being two of the provinces with the heaviest rainfall. An additional argument to this effect is provided by the list of tropical countries which, as already stated, have joined the Berne Convention; for instance—British East Africa, Mauritius, the Seychelles, Southern and Northern Nigeria, Uganda, Fiji, Gambia, the Gold Coast, Sierra Leone, Bermuda, Somaliland, Madagascar, etc. Moreover, as a result of experiments made in England on behalf of the Home Office, it has been definitely stated that there is no evidence that a match containing white phosphorus is of necessity, as regards resistance to damp, in any way superior to a phosphorus sesqui-sulphide match not containing white phosphorus. Figures have been obtained of the prices in different parts of India, during 1911-12, of cheap safety matches, and strike-anywhere matches with and without white phosphorus. It has been ascertained that there is practically no difference in price between the cheap safety match and the lucifer match (whether containing white phosphorus or not).

Ferguson Channel closed; New Channel opened.

No. 584 (second publication).—The Coast Inspector, Shanghai, has given Notice (No. 542 of 1912) that on the 20th September 1912, the aids to navigation marking the Ferguson Channel were removed, and that aids to navigation to mark a new channel over the bar were placed in position as follows :—

Entrance Buoy.—A *black* buoy, gas-lighted, and showing an occulting *white* light every 8 seconds, thus :—

Light	...	...	4 seconds,
Eclipse	...	...	4 „

was moored in 13½ feet of water at low water of spring tides, in the eastern approach to the new channel, with the Cavalier at North Fort bearing N. 64½° W., distant 5·83 miles.

Bar Light-boat.—A light-boat, painted *red*, with one mast surmounted by a *black* ball, and showing a fixed *red* light visible in clear weather at a distance of 4 nautical miles, was moored in 3 feet of water at low water of spring tides on the northern side of the new channel, with the Cavalier at North Fort bearing N. 54° W., distant 3·66 miles. During foggy or thick weather the following responding fog signal will be made :—

A gong sounded at intervals of 1 minute so long as the fog signal of a vessel in the neighbourhood, showing that she is under way continues to be heard.

Inner Buoy.—A conical buoy, painted *red*, was moored in 3 feet of water at low water of spring tides, on the northern side of the channel, with the Cavalier at North Fort bearing N. 44½° W., distant 2·4 miles.

Temporary Leading Marks have been erected on the south bank, which when in line lead through the new channel between the Entrance Buoy and the Bar Light-boat.

All bearings given are magnetic.

The accompanying plan shows the conditions existing on the 20th September 1912.

Simons bay—Regulations for Dockyard port.

No. 568 (third publication).—The following particulars, etc., relative to the above, issued by the British Admiralty (No. 1439 of 1912), are republished :—

HIS EXCELLENCY THE GOVERNOR-GENERAL IN COUNCIL has been pleased, under section *four* of the Simons Bay Dockyard Port Regulation Statutes, 1898-1912, to make the following regulations and to

cancel those published in the *Gazette* of the Colony of the Cape of Good Hope under Government Notice No. 732, dated 11th September 1899:—

1. The area of the Dockyard Port as defined by the statutes above mentioned is included within the following boundaries:—

On the east so much as is comprised within a line drawn due south (true) from the Phœnix Buoy to the shore, meeting a line drawn north 32° west (true) from the Phœnix Buoy to the shore on the south of Elsey Bay; on the north-west, west, and south, the line of highwater-mark of spring tides between the points where the above defined lines meet the shore, with all bays, creeks, lakes, pools, and rivers as far as the tide flows, which boundaries are delineated on a plan filed in the office of the Surveyor-General, marked 2,554 MM.

2. No vessel shall moor or anchor so as to obstruct navigation in or out of the Dockyard Port.

3. The Senior Naval Officer shall have exclusive right to lay down moorings within the area of the Dockyard Port. Merchant ships must anchor only in berths assigned to them by the Senior Naval Officer, or his representative. Freedom of access will be given at all times when the space is not required for His Majesty's ships and vessels.

4. No gunpowder or other explosive shall be allowed on board merchant vessels without the written permission of the Senior Naval Officer, and no merchant vessel shall be allowed to discharge loaded ordnance within the whole area of the Dockyard Port as laid down in section *one* of the "Simons Bay Dockyard Port Regulation Statutes, 1898-1912." The loading or unloading of gunpowder or other explosives shall be regulated by the Senior Naval Officer.

5. No merchant vessel shall be permitted to have on board any quantity of tar, oil, or other combustible substances beyond such as may be required for her general use within the limits of the Dockyard Port without the permission of the Senior Naval Officer.

6. The Senior Naval Officer is authorized from time to time, where the Naval Service requires it, to limit the speed of steam vessels to a speed not to exceed four knots per hour within the limit of the Dockyard Port, as laid down in section *one* of the Act above quoted.

7. Every merchant vessel of and above 150 tons anchored or moored within the Dockyard Port shall have on board at least one person at all hours of the day and night.

8. If at any time the anchor of any merchant or other private vessel hooks any Government moorings, or any electric cables, or moorings of buoys, the master or other person having the charge or command of such vessel shall not proceed to unhook the same, but shall forthwith give notice thereof to the Senior Naval Officer in order that aid may be given for clearing such moorings or cables without doing damage to the same.

9. No merchant or other private vessel or boat shall, without license in writing from the Senior Naval Officer, be moored or fastened to any Government moorings, buoys, piles, or vessels in the Dockyard Port.

10. No ballast, stones, earth, clay, refuse, ashes, rubbish, dust, filth of any description, and no refuse from any quarry, mine, or pit shall be unladen, cast, or allowed to fall into the waters of the Dockyard Port, except in such places as are appointed by the Senior Naval Officer, or into or upon the banks, or any portion of the shore of the said Dockyard Port, or into or upon the shores of any rivers or streams discharging into the said Dockyard Port where the same may be liable to be washed into the waters of the Dockyard Port by rain, tide, or otherwise.

11. Nothing, however, in the foregoing provision shall be deemed to exclude such vessels as require admission to the town pier for loading and unloading cargoes; and all such vessels shall continue to enjoy their accustomed privileges in this respect as fully as if these regulations had not been made, provided they do not impede or interfere with the navigation of His Majesty's vessels.

12. The master of every vessel to which these regulations relate shall observe and cause them to be observed so far as they relate to his vessel, and if any master or other person acts in any respect in contravention of any of these regulations, or fails to observe or cause to be observed, in any respect, any of them, he shall be liable on conviction to a penalty not exceeding ten

pounds, or to imprisonment with or without hard labour for a period not exceeding three months.

Note.

The limits of the inner anchorage have been erased from chart No. 1849, and the limits of the Dockyard Port placed on the undermentioned charts:—

First Forecast of the Wheat Crop of Bengal, 1912-13.

[*NOTE.—On the average of the five years ending 1910-11, the area under wheat in Bengal represents some 0·6 per cent. of the total area under wheat in India.*

The ratio of the irrigated wheat acreage to total acreage in (a) British India and (b) in the territory now reported on has, in the five years ending 1910-11, averaged (a) 40·0 per cent. and (b) 10·7 per cent., respectively.]

Explanatory.—Three forecasts of the wheat crop are published. The first forecast deals only with the area sown and the general character of the crop.

Area sown.—The total area sown with the crop up to date this year as reported by the District Officers is 145,100 acres against 143,000 acres last year.

Character of the season.—The rainfall in September and October was general and sufficient for sowings of the crop in normal time. The sowings were a little late only in Malda and in parts of Burdwan and Rangpur owing to want of timely rain. Good showers of rain in the beginning of November generally facilitated the growth of the crop. The season has been favourable so far, and the present condition and prospects of the crop are reported to be fairly good.

DEPARTMENT OF AGRICULTURE, BENGAL.

Second Forecast of the Winter Rice Crop of Bengal, 1912-13.

(Note.—On the average of the five years ending 1910-11, the area under winter rice in Bengal represents 19·5 per cent. of the total area under rice in British India.)

Character of the season.—The rainfall in April was excessive in the Eastern Bengal districts, and not much above the normal in most other districts. In May the fall was slightly defective. The season for the preparation of seed-beds and for ploughing was generally favourable. In June the rainfall was approximately normal with a tendency to defect. The rainfall in July was slightly below the normal in the Burdwan, Dacca and Chittagong Divisions, and was in excess in the rest of the province; but it was on the whole favourable for transplantation, which generally commenced in normal time, although the work was retarded subsequently in parts of the Chittagong Division owing to insufficient rainfall. The rainfall during August and September, though below the normal, was not so unfavourable to the crop as might have been expected; but a little more rain would have benefited the growth of the crop greatly. There was a good rainfall in October which proved beneficial to the crop at the time of maturity. The cyclonic storm accompanied with heavy rain which occurred at the end of the month, caused slight damage to early varieties of the crop. Some damage was also done by floods in Rajshahi, Bogra and Dacca and by insect-pests in Noakhali. On the whole the season has been favourable to the crop.

Acreage.—According to the figures furnished by district officers, the area sown this year is 15,295,400 acres against 14,963,900 acres last year, or a small increase of 331,500 acres. The normal area under the crop is returned as 16,075,300 acres.

Outturn.—From the summary of the district returns appended, it will be seen that six districts report more than a normal crop, viz., Noakhali (125 per cent.), Rangpur, Pabna and Chittagong (each 110 per cent.), Khulna (108 per cent.) and Mymensingh (101 per cent.). Six districts report an average crop. Thirteen districts report a crop between 82 and 94 per cent., and only two districts, namely, Dacca and Rajshahi, report a crop as low as 79 and 75 per cent., respectively, due chiefly to damage done by the cyclonic storm and floods. According to district officers' estimates the provincial outturn works out to 95 per cent. of the normal against 103 per cent. last year.

On the basis of the normal yield of 12 maunds of clean grain per acre, the provincial outturn, as worked out from district officers' estimates, is 128,106,800 cwts. against 135,884,400 cwts. last year, or a decrease of 6 per cent.

APPENDIX I.

Second Forecast of the Winter Rice Crop of 1912-13.

District.	Estimated normal area under winter rice.	Estimated area under winter rice.		Estimated outturn as a percentage of the normal yield per unit of area.		Date by which the harvesting generally commenced this year and whether that date was early, normal or late.	Remarks by District Officers.
		Last year.	This year.	Last year.	This year.		
1	2	3	4	5	6	7	8
	Acres.	Acres.	Acres.				
24-Parganas ...	899,700	812,100	827,400	72	88*	First week of November. Early.	The rough wind of October last damaged the crop to some extent, and thus caused the outturn to fall off.
Nadia	136,800	135,300	135,300	83	83*	End of October in Kumarkhali and Khoksa. The harvesting has not commenced in other places.	The weather has been favourable to the growth of the crop.
Murshidabad ...	345,600	337,000	337,000	96	83*	End of November ...	Want of rain in September and October much affected the growth of the crop. About two annas of the crop were damaged by drought and one anna damage is expected from cyclone on 31st October and 1st November. Hence the fall in outturn.
Jessore	568,100	478,200	466,300*	98	92*	Not yet commenced ...	The weather was occasionally rainy with high wind. The rainfall in the beginning and end of October having somewhat improved the growth of the crop, the outturn is expected to be normal.
Khulna	655,700	651,300	759,500*	94	108*	Beginning of November. Normal.	The increase in area since the first forecast is due to inclusion of the area under "rainda paddy" in Bagerhat subdivision and to extension of cultivation in the Sundarbans and to revision of figures after careful enquiry. The weather was favourable, but a little damage was done to the crop by the last cyclonic weather. The damage done is estimated to the extent of one anna. The outturn has exceeded the normal owing to favourable weather.
Burdwan	874,800	742,300	706,000*	85	92*	End of November. Normal.	The weather was favourable except in Asansol subdivision where it was unfavourable in October, when the crop suffered for want of timely rainfall. The rainfall and high wind in the latter part of October have also done some damage in the Kalna subdivision, though the condition of the crops improved elsewhere. The damage in Kalna is estimated at two annas. The outturn is better than last year except at Asansol where it is below the normal.
Birbhum	604,600	584,600	498,800	103	75*	Not yet begun	Since the submission of the first forecast the crop has suffered owing to insufficient rain.
Bankura	510,600*	475,000	476,400	83	83*	Ditto	The weather and rainfall were not favourable for the growth of the crop during the latter part of September and the beginning of October. The cyclonic weather in the end of October and the beginning of November has done some damage to the crop. Hence the fall in outturn since the submission of the first forecast.
Midnapore	1,406,000	1,275,000	1,618,400*	84	100*	Third week of November.	There has been an increase of 343,400 acres over last year's area and of 243,500 acres over that of the first forecast, which is attributed to better rainfall in the sadar and Contai subdivisions and to the fact that sowing being late, the entire area was not included in the first forecast. The weather has been favourable all along, but the last wind and rain have caused some damage to the crop.
Hooghly	276,700	234,300	251,200	72	94*	First week of December. Normal.	The increase in area was due to timely rainfall. The weather was favourable to the growth of the crop, though the recent storm and rain damaged the crop to a slight extent. The outturn is expected to be better than that of last year, though there is a decrease owing to recent rain and storm.
Howrah	125,900	98,500	106,600	65	83	End of November ...	The cessation of rain in September retarded the growth of the crop to some extent, but the rainfall in the latter part of the season did much good to the crop. The recent cyclone did slight damage and but for it the crop would have been normal.
Rajshahi	697,000	502,500	502,400*	115	75	Will commence from first week of December. Normal.	The weather was not favourable. About one-fourth of the crop has been damaged by floods and drought in Naogaon subdivision. Hence the outturn is below the normal.

	Acres.	Acres.	Acres.				
Dinajpur	1,120,300	945,000	966,000	150	82*	Not yet commenced ...	The increase of area was due to early rainfall. The weather since the submission of the first forecast has not been favourable. The crop was slightly damaged by the cyclonic weather in the latter part of October. The outturn has fallen below the normal owing to drought in the latter part of September and first part of October.
Jalpaiguri ...	551,300	523,000	527,400*	120	90*	Beginning of December. Normal.	This year's area has been increased after further enquiry since the first forecast. The weather was seasonable, but the growth of the crop was partly retarded for want of sufficient rainfall. The recent cyclonic weather also damaged the crop to some extent. Hence the outturn is below the normal.
Darjeeling ...	65,300	37,100	37,100	99	100	November. Normal ...	The weather was favourable and the outturn is expected to be normal.
Rangpur ...	822,300	745,000	746,500	116	110*	First week of December. Normal.	The weather was all along favourable but the recent cyclone has done damage to the paddy plants to the extent of two per cent. The outturn is anticipated to exceed the normal.
Bogra ...	303,000	303,000	303,000	101	85	Not yet commenced ...	Want of seasonable rainfall at first and heavy rain afterwards retarded the growth of the plants in the beginning. Excessive rainfall and flood caused damage to the crop in the eastern parts and in the khas mahal in the beginning of the season. The recent storm at the close of October and in the beginning of November also contributed to the falling off in outturn.
Pabna ...	566,000	500,000	470,000	105	110*	Middle of November. Normal.	The decrease in area was due to extension of jute cultivation. The crop suffered to some extent for want of sufficient rain in October. The showers at the end of October and in the beginning of November improved the condition. There was no damage from flood, insect pest or blight. The outturn will be slightly better than that of last year.
Malda	300,000	307,000	302,000	125	100*	End of November. Normal.	For want of rain from the latter part of September to end of October the crop could not grow well. About four annas crop has been damaged owing to drought only. The outturn would have been 125 per cent. if favourable rain had fallen throughout.
Dacca	633,100	678,300	677,300	96	79*	November. Normal ...	The weather has been characterised by alternate rain and drought. At the end of October there was a cyclonic storm and some damage has been caused to the crop in places which is estimated to be about 20 per cent. Hence the fall in outturn.
Mymensingh ...	1,126,700	971,700	993,800*	110	101*	Not yet commenced ...	The increase in area since the submission of the first forecast is due to the fact that a portion of the area under *bhadoi* crop was transplanted with winter rice. The weather has on the whole been favourable but much damage was done to the crop by the cyclonic rain in the beginning of November in Tangail.
Faridpur	561,000	487,900	427,600*	94	87	Ditto ...	Slight revision of the area has been made since the first forecast. The weather was not favourable at sowing time but since then it has been fairly favourable.
Bakarganj	1,200,000	1,329,300	1,329,300	120	100	Not yet begun ...	The heavy rainfall with high wind in October caused a slight damage to the crop.
Chittagong	418,400	419,000	419,800	100	110*,	First part of November. Normal.	The unusual rainfall in September and October made good the previous deficiency in rainfall, and the outturn is expected to be above the normal.
Tippera	724,800	725,000	735,000	95	100*	11th November. Normal.	Since the submission of the first forecast the rainfall was not sufficient in some parts but was fair on the whole and the growth of the crop was good. There has been no damage to the crop and the outturn is expected to be normal.
Noakhali	566,900	644,000	644,500	110	125*	Latter part of November. Normal.	The increase in area is due to transfer to winter rice crop of fields originally sown with jute, which was damaged by flood. Prospects have considerably improved since the first forecast. The weather was favourable during September and October and though a little damage has been done by insect pests in Feni subdivision and by fungus diseases in lowlying fields in Sadr subdivision, a very good crop is expected.
Chittagong Hill Tracts.	15,500	22,800	23,000	100	100*	Not yet commenced ..	Heavy rainfall in the latter part of October did considerable good to the crop. Some slight damage has been done to the crop in some parts by rats. The outturn is estimated to be same as last year.

MONTHLY WEATHER AND CROP REPORT OF BENGAL FOR NOVEMBER 1912.

I. *Character of the season.*—During the month under review rainfall was general and much above the normal throughout the province. A statement showing the rainfall in the several districts of the province is appended.

II. *Progress of agricultural operations.*—The sowing of *rabi* crops continued. The harvesting of *aman* paddy, winter *til*, cotton and sugar-cane commenced during the month.

III. *State of standing crops.*—The condition of standing crops was fairly good.

IV. *Prospects and probable outturn of crops.*—The outturn of the *bhadoi* crops for the province as a whole is estimated at 87 per cent. of the normal. The prospects of winter rice were fairly good and the outturn was expected to be normal for the province as a whole. The prospects of the various kinds of *rabi* crops were reported to be fairly good.

V. *Damage to crops.*—The violent cyclonic storm which occurred at the end of October lasted during the first two days of the month and did some damage to the early varieties of the winter rice crop.

VI. *Condition of agricultural stock.*—The condition of agricultural stock was on the whole good. Cattle-disease was, however, reported to be prevalent in parts of the districts of Nadia, Jessore, Khulna, Burdwan, Midnapore, Hooghly, Bankura, Mymensingh and Tippera.

VII. *Failure of pasturage and fodder.*—The supply of fodder was sufficient throughout the province, except in parts of Tippera, where scarcity of fodder was reported during the first week of the month.

VIII. *Prices of food-grains.*—During the second fortnight of the month under review the price of common rice rose in five districts, fell in ten districts and remained stationary in the rest. It varied from 7 seers a rupee in the Chittagong Hill Tracts to $10\frac{1}{16}$ seers in Midnapore.

IX. *Condition of agricultur l people.*—The condition of the agricul tural population continued to be good.

DISTRICT REPORTS ON WEATHER AND CROPS

For the week ending on the 16th December 1912.

Summary.—During the week no report of rainfall was received. The weather was seasonable. The harvesting of winter rice and the sowing of *rabi* crops are proceeding. Standing crops are generally reported to be doing well. The average price of common rice for the province has fallen by about 1 per cent. as compared with that of the previous week. Cattle-disease is reported from six districts.

3. (*a*) Government reserves to itself the right to alter the quantity and class of opium to be offered for sale in each month. No reduction in the quantities to be sold, however, will be made without three months' previous notice.

(b) The chests sold for China will be marked in a distinguishing manner and covered by a special permit to be granted by Government.

(c) All chests of certified opium sold for export to China must be shipped from Calcutta, on or before the 15th of December 1913, and if they are not so shipped, the option will be cancelled, and permits for their export to China will not be given either in 1913 or at any future time.

4. The following are the conditions of sale. Government reserves to itself the right of altering all or any of these conditions after giving three months' previous notice, and power is reserved to vary the upset prices referred to in condition (ii) at any time without such previous notice:—

(i) The opium will be sold for exportation by sea only, and no certificate will be granted except to cover such export.

(ii) The opium will be ordinarily offered for sale at an upset price of Rs. 2,000 per chest of certified opium and of Rs. 1,200 per chest of uncertified opium and will be sold to the highest bidder above these prices except under the circumstances for which provision is made by clause xiii of these conditions of sale. The bids must advance by Rs. 5 at a time.

(iii) The sale shall commence at the hour of 11 A.M. of the day fixed by previous notification, and shall not be continued after the hour of 5 P.M., but if at that hour any of the lots advertised for sale shall remain unsold, the sale may, at the discretion of Government, be resumed on the next day following (not being Sunday or a public holiday), at the hour of 11 A.M., and so on until the whole of the remaining lots are disposed of; or if the whole quantity advertised shall not be sold on the day appointed, the Government may dispose of the lots which remain on hand at a future sale.

(iv) Each lot shall contain five chests.

(v) A Promissory Note for a sum, calculated according to the scale noted in the margin, shall be taken as a deposit on each lot from the purchaser in the sale-room and before the lot is registered in the sale-book, and all such Promissory Notes shall be redeemed on the part of the purchasers at this office by Bank of Bengal receipts, or by substitution of other public securities of the Government of India, on or before 3-30 P.M., in the afternoon of the fifth day after the sale, provided it does not fall on a Saturday; if it falls on a Saturday, the said notes must be redeemed by 1-30 P.M., or, on the other hand, failing such redemption by the time aforesaid, then the lot or lots for which no Bank of Bengal receipts or deposit of other public securities as aforesaid shall have been delivered in, shall be re-sold at such time or times and under such conditions of re-sale as Government shall see fit; and all losses and expenses whatsoever attending such re-sale shall be borne and paid by the defaulters, whilst any profit accruing from such re-sale shall be forfeited to Government.

DEPOSIT.

When the amount bid is less than Rs. 1,200 per chest, Rs. 200 per chest.
On bids of Rs. 1,200 and upwards, but less than Rs. 1,600 per chest, Rs. 300 per chest.
On bids of Rs. 1,600 and upwards, but less than Rs 2,000 per chest, Rs. 400 per chest.
And so on, Rs. 100 being added to the deposit for every bid additional to the extent of Rs 400.

(vi) The said Promissory Notes shall be absolutely payable in any event, and the amount thereof shall be absolutely forfeited upon such default as before mentioned, and the amount thereof shall not go or be credited in reduction of any loss on re-sale or expenses thereby incurred, but shall be recoverable whether such re-sale shall be had or not, or whether there shall be a loss on such re-sale or not.

(vii) The Promissory Notes taken on the day of sale under the fifth condition, if remaining unredeemed at 3-30 P.M. of the fifth day following the day of sale, or 1-30 P.M., if the last day falls on a Saturday, will be placed in the hands of the Solicitor to the Government for realization in such manner as to him shall seem fit.

(viii) No tender of money, Bank of Bengal receipts or public securities, on account of opium upon which the prescribed deposit may not have been made before the prescribed time in clause (v) on the fifth day following the day of sale, will be afterwards accepted: Provided always that money so subsequently tendered may be taken in payment of the said Promissory Note, but such acceptance of money shall in no way entitle the payer thereof to any right to delivery of the lot or lots in respect whereof the said note was

given, or to any of the rights of a purchaser thereof, or release the payer from liability for any unpaid balance of such notes or from the additional liability for the loss and expenses of such re-sale as provided for in clauses No. (v) and No. (vi).

(*ix*) The opium advertised for sale shall be paid for not later than by 3-30 P.M. of the fifteenth day from the day of sale, provided it does not fall on a Saturday; if it falls on a Saturday, the opium must be paid for by 1-30 P.M.; and, in case any lots of such opium shall not be so paid for and adjusted, then the cash deposit made under the fifth condition, or any public securities that may have been deposited on account of such lots or chests, shall be forfeited, and the opium shall be disposed of on account of Government at such time and in such manner as Government shall think fit; and the first purchaser shall further be required to make good all expenses and any loss or difference of price between that obtained at the re-sale and the amount at which the opium was first purchased, forfeiting all advantages that may arise from such re-sale, and the liability for the loss or difference of price and expenses shall be in addition to, and wholly independent of, the amount of the deposit so forfeited.

(*x*) Purchasers taking out certificates or orders for the delivery of opium, after making full payment as above prescribed, shall have the option of naming the number of lots of their purchase, which they may desire to be included in each certificate or order; and it is to be clearly understood that the certificates or orders so taken out shall be considered final, and not afterwards changeable for other certificates or orders authorizing the delivery of single lots or of a different number of lots or chests, whether more or less, than the number of lots or chests ordinarily required to be included in each certificate or order.

(*xi*) No deposit of public securities under the fifth of the present conditions will be received in this office except from the party recorded as the purchaser in the sale-book, or his authorized agent. The receipt for deposit of public securities will be granted only in the name of such purchaser, and the securities so deposited will be returned when payment in full has been made by the said purchaser or his order.

(*xii*) The officer superintending the sale on the part of the Government is empowered to reject, at his discretion, the bid of any individual, unless such individual shall on demand render at the time a deposit either in Government of India Notes, Bank of Bengal receipts, or Government securities, a sum equal to the amount for which a Promissory Note would otherwise be taken under the fifth of these conditions.

(*xiii*) With a view to prevent fictitious biddings designed to obstruct the sale, it is hereby notified that the officer of Government superintending the sale shall be competent, at any time during the sale, to withdraw any unsold lot, and immediately to put it up again for sale at a maximum upset price, diminishing the same gradually by Rs. 5 at a time until a bid is obtained; and the first *bonâ fide* bidder for a lot, after it has been offered for sale in the mode here described, shall be held and declared to be the purchaser of the said lot, and the officer of Government superintending the sale shall also be competent to dispose, in the same manner, of as many of the subsequent lots as he may think proper, provided always that no lot shall be sold below the minimum prices of Rs. 2,000 and Rs. 1,200 specified in the second of these conditions.

(*xiv*) The purchaser of any lot shall have the option of naming and purchasing in immediate succession, at the same price and under the same conditions, any number of lots of the same Agency opium not exceeding altogether fifteen lots, provided always that there remain a sufficient number of lots of the opium to complete the said fifteen.

(*xv*) In the event of any dispute or difference touching or concerning any matter or question arising out of the sale of the opium included in this notification, or adjustment of the account thereof, the same shall and may be tried and decided in the High Court of Judicature at Fort William in Bengal.

(5) The following papers will be exhibited for inspection on the day of sale, or may be seen previously to that date by personal application at the office of the Government of Bengal:—

No. 1—Certificate of the opium advertised for sale.
No. 2—Report of the examination of such opium.

(6) The public are hereby informed that in providing the investment of the opium manufactured at the Patna Factory and the opium manufactured at the Ghazipur Factory, the same precautions have been taken as those which have been observed during past years to have the drug procured and sent down in a pure state, to have only the prescribed quantity of leaves used in forming the cakes, and to have the due proportion of opium put into each cake. An account of the weight of the drug, when packed at the Patna and Ghazipur Factories, and a statement of the average weight of the chests, indiscriminately taken, for the purpose of comparison, from the despatches on arrival at Calcutta, may be seen on personal application at the office of the Government of Bengal.

(7) Any further information respecting weight or quality of the opium advertised for sale that may be desired by parties connected with the trade will, as heretofore, be furnished to them on personal application at the office of the Government of Bengal. But, in accordance with established usage, under no circumstances will the Government entertain or recognize any claim to compensation for loss from any alleged deficiency of weight, abstraction of opium, or adulteration of the drug, which may be preferred on reference to chests after the sale and delivery of the opium for shipment.

2. The draft will be taken into consideration on or after the 1st January 1913 and any objection or suggestion received by the undersigned before that date will be duly considered.

Draft of amendments.

After item 13 *add* the following item :—

"14. During the period from the 1st December to 15th June boats laden with rice will be allowed to proceed to or from the river Biddiadhari through the Circular Canal and the Tolly's Nala *via* Kidderpore on payment of a rate of one rupee and twelve annas per hundred maunds of measured maundage for passage through these canals.

For purposes of reckoning demurrage charges under item 11 of this schedule, in the case of such boats during the said period, two extra days will be allowed over and above those provided for vessels plying on the Tolly's Nala.

Boats plying under this concession will not be allowed either to load or to unload along the Circular Canal or the river Hooghly. Infringement of this rule will render the boats liable to the ordinary tolls in force for the Circular Canal and Tolly's Nala."

NOTICE

FOR maintenance and working of the Barkal Tramway and rolling-stock from Peshkicherra to Chaitatali, 1½ miles long, on the right bank of the river Karnafuli in the Chittagong Hill Tracts—

The Superintendent, Chittagong Hill Tracts, Public Works Department, invites tenders for the above work for a period of 12 months from 1st April 1913. A copy of specification for the said work is given in Schedule A.

A summary of conditions, maximum rates for passengers and luggage, &c., on which the contract will be drawn up can be seen from the subjoined copy of current agreement with contractor Babu Kailash Chandra Mitra, of Svarnagram, Dacca, given in Schedule B.

The undersigned is prepared to consider any subsidy if required for the maintenance of the service.

A list of rolling stock, plant, bridges, buildings and furniture, &c., to be maintained is given in Schedule C.

Each tender must be accompanied by earnest-money in currency notes, amounting to Rs. 25 (twenty-five only), which will be returned in the event of the tender not being accepted, and will be treated as security in the case of the successful tenderer.

Tenders must be forwarded in sealed cover addressed to the Superintendent, Chittagong Hill Tracts, Public Works Department, Rangamati, and must reach him on or before 3rd January 1913. The cover should be endorsed on the outside with the sender's name and address and should be superscribed in red ink "Tender for working and maintenance of the Tramway line, rolling-stock, &c., at Barkal from April 1913, to be opened on the 3rd January 1913." Unless so superscribed they are liable to be returned without consideration.

The Superintendent, Chittagong Hill Tracts, does not bind himself to accept the lowest tender or to assign any reason for non-acceptance.

O. MAWSON, Superintendent, Chittagong Hill Tracts.

Rangamati, the 28th November 1912.

SCHEDULE A.

SPECIFICATION.

FOR working the Barkal Tramway and maintenance of the line and the rolling-rock the contractor will employ a clerk and a staff of (say) six men at Barkal, varying in strength according to the traffic and stress of work on the line.

The contractor will be responsible for keeping waterways and approaches of bridges perfectly clear all through the year and taking care of all bridges and culverts on the Tramway and of Government buildings and for executing petty repairs thereto as occasion arises (save annual repairs to bridges and buildings) and for the safe custody of all furniture and stores at Barkal. All stores used up or rendered unserviceable by the contractor must be replaced at his cost.

Except where the line is fairly level and straight, the trollymen must not get on the trolly especially when it is running down a slope.

Sleepers should be well packed with earth to give an even bearing surface and necessary camber to the rails. The line should be maintained in smooth uniform straight lines and curves, the inside of adjacent railheads being kept in one uniform line (to prevent jolting and breakage of wheels, axle, boxes, &c.), by properly placing the sleepers and keeping the rails thereto.

All worn-out parts of trucks and trollies to be renewed and all damaged or broken parts to be replaced by the contractor. Axle boxes of trucks should always be kept well lubricated with oil, &c., and be maintained in a perfectly clean condition. All wrought-iron or steel work to be painted with red lead paint.

The whole length of the line, about 1½ miles in length, to be kept clear of slips and caused by rain or otherwise and of all jungle growth all through the year for a width of about 60 feet. Similarly the approaches to the rest-houses and to the river in different places on the line should be properly maintained and kept clear of jungle, &c., to the usual width.

A clear width of ten feet for roadway with ordinary barrelled surface of road, side drains and cross drains for free drainage with small cut as outlets or water passage at short intervals from the outer drains to prevent the track being cut away by the drainage should be maintained by widening where necessary with about two feet wide side parapet of earth to prevent accidents and to stop derailed trucks.

After the rains are over, all irregularities or hollows in the roadway should first be levelled off, and when this is done, fresh earth cut from the hill side added so as to make up the road to the prescribed section, that is to give a camber or rise of one in twelve inch the centre of the roadway. The new earthwork must be consolidated by ramming or rolling early in the morning of the day following that on which it is put on the road, so as both to retain the moisture in the soil and to take the advantage of the dew before it evaporates.

N. N. DAS, District Engineer.

The 23rd December 1911.

SCHEDULE B.

Contract between the Superintendent, Chittagong Hill Tracts, on behalf of the Secretary of State for India in Council on one side and on the other Babu Kailash Chandra Mitra, son of late Ram Kinkar Mitra, of Svarnagram, thana Munshiganj, district Dacca, the executor of the estate of the late Rai Abhoya Charan Mitra Bahadur.

Know all men by these presents that I, Kailash Chandra Mitra, of Svarnagram, thana Munshiganj, district Dacca, executor of the estate of the late Rai Abhoya Charan Mitra Bahadur, residing at present at Chittagong, do hereby contract with the said Secretary of State for India in Council or his successor, and do hereby also agree and bind myself by the said contract to carry on the working and maintenance of the Tramway line about 11½ miles in length (excluding bridges and buildings) and of the rolling-stock at Barkal together with the upkeep, repairs and sweeping of the line and the approach road at that place for an annual subsidy of Rs. 600 only to be paid to me by instalments subject to the conditions enumerated below :—

1. That the contract for the said work be for a period of twelve months from the 1st April 1912 to 31st March 1913 with the option of renewal on terms to be then settled.

2. That the undertaking and everything appertaining thereto shall be maintained and repaired efficiently to the satisfaction and according to the instructions and orders of the Superintendent and the District Engineer, Chittagong Hill Tracts, and that it be open to the inspection of the said officers at all times, and without the permission of the said Superintendent and District Engineer nothing shall be removed nor any alteration in the work made. In the event of any defects in the maintenance, repairs or proper working, the same can be mended by the said officers at my expense and the contract may also be summarily terminated, all losses being recovered from me.

3. That a list of all line, rolling stock, etc., constituting the undertaking be made and given to me, the same to be delivered to the said Superintendent or the District Engineer on termination of the lease in good order after making all proper allowances for fair wear and tear.

4. That the rates of carriage shall be as per details given below and to continue to be in force during its currency :—

(*a*) All stores, materials ordered or required by the Superintendent or the Engineer for transport in trucks over the line at Barkal to be allowed free of charge without objection.

(*b*) All other goods conveyed to be charged at the rate of 2 annas per maund.

(*c*) Goods weighing less than half maund to be charged as half maund at the rate of one anna.

(*d*) Goods weighing more than half a maund to be charged as one maund.

(*e*) Light goods weighing less than six maunds but occupying a whole truck shall be charged for at the rate of 12 annas per truck, *i.e.*, for six maunds, which is the carrying capacity of a truck.

(*f*) Goods weighing more than six maunds and carried in one truck to be charged at 2 annas per maund.

(*g*) That in the event of any dispute arising an appeal shall lie to the Superintendent, Chittagong Hill Tracts, whose decision shall be final.

THE INDIAN LAW REPORTS.

Published in FOUR SERIES, viz

CALCUTTA, MADRAS, BOMBAY AND ALLAHABAD

THE Indian Law Reports, published under the authority of the Governor-General in Council, are printed in monthly Parts, which are issued, as soon as possible after the first of each month, at Calcutta, Madras, Bombay and Allahabad, respectively.

The Reports comprise four Series—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court.

The cases heard by the Privy Council on appeal from each High Court are reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta series.

The Calcutta Series is distributed by the Bengal Secretariat Book Depôt: and the Madras, Bombay and Allahabad Series are distributed direct from Madras, Bombay and Allahabad, respectively.

Persons desiring to subscribe for or purchase the Reports should apply to—

the Officer in charge Bengal Secretariat Book Depôt, Calcutta, or
the Superintendent, Government Press, Madras, or
the Superintendent, Government Central Press, Bombay, or
the Curator of Government Books, United Provinces of Agra and Oudh, Allahabad.

PART I.—*Preliminary.*

Short title.

1. These rules may be called the Bengal Legislative Rules, 1912.

Definitions.

2. In these rules, unless there is anything repugnant in the subject or context,—

(*1*) "Council" means the Bengal Legislative Council;

(*2*) "President" means—

(*a*) the Governor, or

(*b*) in the absence of the Governor, the Vice-President appointed by the Governor under section 4 of the Indian Councils Act, 1909; or 9 Edw. 7, c. 4.

(*c*) in the absence of the Governor and the Vice-President, any other Member who is entitled to preside at a meeting of the Council during the conduct of any business under these rules.

(*3*) "Member" means a Member of the Council, whether Ordinary or Additional;

(*4*) "Secretary" means the Secretary to the Bengal Legislative Council, and includes the Assistant Secretary and every person for the time being exercising the functions of the Secretary; and

(*5*) "Bill" means—

(*i*) a proposed Act before it has received the assent of the Governor and the Governor General, or

(*ii*) a document embodying amendments in these rules, proposed in Council under section 37 of the Indian Councils Act, 1861, before such document has received the assent of the Governor. 24 & 25 Vict., c. 67.

PART II.—*Summoning the Council.*

Notification and summons for meeting.

3. (*1*) Whenever it appears to the Governor to be advisable that the Council should assemble,—

(*a*) he shall cause a notification to be published in the Calcutta Gazette, appointing the day, hour and place for a meeting of the Council, in pursuance of section 36 of the Indian Councils Act, 1861, and 24 & 25 Vict., c. 67.

(*b*) the Secretary shall send to each Member a summons to attend the meeting.

(*2*) When any day, hour and place have been appointed under clause (*1*) for a meeting of the Council, the President may change such day, hour or place, and the Secretary shall send written notice of the change to each Member.

PART III.—*Meetings of the Council.*

Members' places.

4. Seats shall be allotted to Members in such order as the President may direct.

Adjournments.

5. (*1*) The President, when the business of a meeting is concluded, shall adjourn the meeting.

(*2*) He may adjourn at any time, without discussion or vote, any meeting or any business, whether there be a quorum present or not, to any future day or to any hour of the same day.

(*3*) Whenever any meeting is adjourned to a future day, the Secretary shall send notice of the adjournment to each Member who was not present at such meeting.

(*4*) When any meeting has been adjourned, in Council, to a future day, the President may change such day to any other day, and the Secretary shall send written notice of the change to each Member.

Order of business.

6. The President shall regulate the order of business at meetings of the Council, and may at any time refer for consideration at a meeting any particular matter coming properly under the consideration of the Council.

Permission required to transaction of business not entered in list.

7. No business not entered in the List or Appendix sent to Members under rule 51 shall be transacted at any meeting without the permission of the President previously obtained and announced by him.

Preservation of order.

8. (1) The President shall preserve order, and all points of order shall be decided by him.

(2) No discussion on any point of order shall be allowed unless the President thinks fit to take the opinion of the Council thereon.

(3) Any Member may at any time submit a point of order for the decision of the President.

(4) The President shall have all powers necessary for the purpose of enforcing his decisions.

Members how to speak.

9. (1) A Member desiring to make any observations on any subject before the Council shall speak from his place, shall rise when he speaks, and shall address the President.

(2) At any time, if the President rises, any Member speaking shall immediately resume his seat.

On what business Members may speak.

10. No Member shall be heard except upon business then regularly before the Council, or, by permission of the President, specially obtained, in personal explanation in connection with a previous debate.

Order of speeches, and right of reply and explanation.

11. (1) When any Member has made a motion, other Members may speak to it in such order as the President may direct.

(2) After all the Members have had an opportunity of speaking,—

(a) notwithstanding that the Member in charge of the Bill has already spoken, if other Members, speaking after him, have introduced new points, the Member in charge of the Bill shall have a right of reply on such new points,

(b) the mover may speak once by way of reply, and

(c) any other Member may, with the permission of the President, speak once by way of explanation.

(3) A Member who has spoken upon a motion may speak again upon any amendment thereof afterwards moved.

(4) Before a Member who has made a motion speaks by way of reply, any Member who has moved an amendment to such motion may speak by way of reply.

Identical motions.

12. Where identical motions stand in the names of two or more Members, the President shall decide whose motion shall be moved, and the other motions shall thereupon be deemed to be withdrawn.

Time-limit for speeches.

13. When any motion referred to in rule 32 has been carried in respect of any Bill, no speech upon such Bill or any amendment thereof shall, except with the permission of the President, exceed fifteen minutes in duration:

Provided that the mover of a motion, when moving the same, and the Member in charge of the Bill, may speak for thirty minutes.

The closure.

14. (1) When any motion is under discussion, any Member who has not taken part in the discussion may move "that the question be now put."

(2) The President may, at his discretion, either reject such motion or put it to the Council.

(3) If such motion be put to the Council and carried by the votes of at least two-thirds of the Members present and voting, the question shall be put accordingly:

Provided that the President may, before putting the question, permit the mover of the original motion and the Member in charge of the Bill to exercise their right of reply.

Right of President to address the Council before putting the question.

15. The President may, in any case, address the Council before putting the question.

Questions to be asked through President.

16. When, for the purpose of explanation during discussion, or for any other sufficient reason, any Member has occasion to ask a question of another Member relating to business of the Council, he shall ask the question through the President.

Voting.

17. (1) Every matter to be determined by the Council shall take the form of a motion by a Member, to be put to the Council by the President and decided by a majority of votes.

(2) Votes shall be taken by voices, by show of hands, or by division, and shall always be taken by division if any Member so desires.

(3) The President shall determine the method of taking votes by division.

Requisitions by Members for papers or returns.

18. (1) Any Member may ask for any papers or returns connected with any Bill before the Council.

(2) The President shall determine, either at the time or at the meeting of the Council next following, whether the papers or returns asked for can be given.

Communications as to Bill.

19. (1) Communications on matters connected with any Bill before the Council, and proposals for the enactment of any law, must be addressed in the form either of a petition to the Governor in Council or of a letter to the Secretary, and must in either case be sent to the Secretary.

(2) Ordinarily such communications will not be answered.

Circulation of communications.

20. The Secretary shall either cause such communications to be printed, sending a copy to each Member, or circulate them for the perusal of each Member; and shall also refer them to the Select Committee sitting on any Bill to which they may relate.

PART IV.—*Motions.*

Notice of original motions.

21. Members who wish to make any original motion at any meeting (other than a motion for leave to introduce a Bill) must either give notice of their intention at the next previous meeting, or send such notice to the Secretary five days before the day of the meeting at which they intend to make the motion.

Notice of amendments.

22. (1) Any Member who wishes to move an amendment to any Bill about to be brought before the Council must send written notice thereof to the Secretary so as to reach him at least five days before the day on which the Bill is to be taken into consideration by the Council, and shall, together with the notice, send a copy of the amendment which he desires to move.

(2) Where the consideration of a Bill by the Council extends over two or more meetings held at an interval or intervals of less than six days from each other, the said notice must be sent so as to reach the Secretary at least five days before the first of such meetings.

(3) Notwithstanding anything contained in the foregoing clauses, the President may, in his discretion, direct that longer notice, not exceeding a maximum period of fifteen days, shall be given to the Secretary, of amendments which any Member may wish to move in respect of any Bill.

(4) When any direction is given by the President under clause (3), in respect of any Bill, the Secretary shall communicate the same to each Member, and shall simultaneously send him a copy of the Bill (with the Statement of Objects and Reasons or the Report of the Select Committee, as the case may be), unless a copy has already been sent to him.

(5) The said communication shall be made at least as many days before the commencement of the prescribed period of notice as are comprised in that period.

Power to admit motions or amendments at short notice.

23. Notwithstanding anything contained in rules 21 and 22, the President may admit any original motion (other than a motion for leave to introduce a Bill) or any amendment at shorter notice than that prescribed by those rules or under rule 22.

Bar to amendments having effect of negative vote.

24. Amendments having merely the effect of a negative vote shall not be moved.

Entry of motions in List of business.

25. Every motion (whether an original motion or an amendment) of which due notice is given shall be entered in the List or Appendix sent to Members under rule 51:

Provided that, if the President decides that any motion is out of order, it shall be excluded from such List and Appendix, and the Secretary shall communicate the President's decision to the Member concerned.

Withdrawal of motions.

26. A Member who has made a motion (whether an original motion or an amendment) may withdraw the same, unless some other Member desires that it be put to the vote.

Procedure of President when amendment moved.

27. (1) When any amendment upon any motion is moved, the President, when putting the amendment to the Council, shall read the terms of the amendment.

(2) It shall be in the discretion of the President to put first to the Council either the original motion or any of the amendments which have been moved.

Power of President to divide motion.

28. If any motion, as made, involves many points, the President may, at his discretion, divide it so that each point may be determined separately.

PART V.—*Introduction and publication of Bills.*

Introduction of Bills.

29. (*1*) Any Member desiring to move for leave to introduce a Bill in accordance with the provisions of section 37 or section 38 of the Indian Councils Act, 1861, shall give the Secretary at least five days' previous notice of his intention, and shall, together with the notice, send a copy of the Bill and a full Statement of Objects and Reasons. 24 & Vict, c. 67.

(*2*) If such motion be carried, the Secretary shall cause the Bill, together with the Statement of Objects and Reasons, to be printed (if not already in print), and shall send a copy to each Member, and the Bill shall thereupon be deemed to have been introduced in Council.

Publication of Bills after introduction.

30. When a Bill has been introduced, it shall, together with the Statement of Objects and Reasons, be published in the Calcutta Gazette.

Publication of Bills before introduction.

31. (*1*) The Governor may order the publication of a Bill, together with the Statement of Objects and Reasons which accompanies it, in the Calcutta Gazette, although no motion has been made for leave to introduce the Bill.

(*2*) In that case, if the Bill be afterwards introduced in Council without material alteration, it shall not be necessary to publish it again under rule 30.

Motions after introduction.

32. (*1*) When a Bill has been introduced, the Member in charge of it may make one or more of the following motions:—

(*a*) that it be referred to a Select Committee, or

(*b*) that it be taken into consideration by the Council, either at once or at some specified future day, or

(*c*) that it be circulated for the purpose of eliciting opinion thereon.

(*2*) No motion referred to in clause (*1*) shall be made until after a copy of the Bill and a copy of the Statement of Objects and Reasons have been furnished to each Member.

(*3*) Any Member may object to any such motion unless such copies have been furnished to him at least seven days previously; and such objection shall prevail unless the President, in exercise of his power to suspend any of these rules, allows the motion to be made.

Discussion of principle and general provisions of Bill.

33. On the day on which any motion referred to in rule 32 (*1*) is made, or on any subsequent day to which the discussion is postponed, the principle of the Bill and its general provisions may be discussed.

PART VI.—*Select Committees.*

Appointment of Select Committees.

34. Select Committees may be appointed by the Council for any purpose connected with the Legislative business of the Council.

Chairman of Select Committee.

35. (*1*) The Member in charge of a Bill shall ordinarily be Chairman of any Select Committee to which the Bill is referred.

(*2*) In case of an equality of voices at any meeting of a Select Committee, the Chairman shall have a second or casting vote.

Select Committee to examine Bill and make a Report.

36. When a Bill is referred to a Select Committee,—

(*a*) the Committee shall examine the Bill, clause by clause, and, if they or a majority of their number decide to recommend any alteration in the Bill, the Bill shall be revised so as to bring it into conformity with such recommendation; and

(*b*) the Committee, or a majority of their number, shall make a Report on the Bill—

(*i*) not less than one month after the Bill has been published in the Calcutta Gazette, or

(*ii*) at any time that the Council may direct.

Nature and contents of Report.

37. (1) Such Report may be either preliminary or final or sole.

(2) Such report shall be confined to a statement of the alterations (if any) made by the Committee or a majority of their number, and of their reasons for such alterations, and

(a) (in the case of a final Report or a sole Report) a recommendation that the Bill be passed, or

(b) a recommendation that the Bill be republished, with the Report or

(c) a recommendation that the Bill be not further proceeded with.

Notes of Dissent.

38. (1) Any member of a Select Committee who desires to record a Note of Dissent from any such Report must forward the same to the Secretary at or before the time at which the Report is sent to such Member for signature; and the Secretary shall thereupon annex such note to the Report.

(2) Every such Note of Dissent must be confined to a discussion of matter contained in the Report, and must be free from personal remarks.

(3) If any such Note of Dissent is open to objection under clause (2) of this rule, the President shall cause it to be returned to the Member concerned for the purpose of amendment; and if the Member does not, within such time as the President may fix in this behalf, resubmit the note duly amended, the note shall be deemed to have been withdrawn.

Printing, circulation and publication of Bills and Reports.

39. Every Report made by a Select Committee or a majority of their number, with the Bill to which it relates and any Notes of Dissent received under rule 38,—

(a) shall be printed, a copy thereof being sent by the Secretary to each Member, and

(b) shall be published in the Calcutta Gazette, and may, if the President so directs, be so published before presentation to the Council.

Proceedings of Select Committee to be treated as confidential.

40. All proceedings of a Select Committee shall be treated as confidential, and its recommendations shall not be disclosed until the Report of the Committee is published in the Calcutta Gazette or presented to the Council.

Presentation and consideration of Select Committee's Report.

41. (1) Every Report by a Select Committee shall be presented to the Council, and shall be taken into consideration by the Council as soon as conveniently may be.

(2) Any Member may object to a Report being so taken into consideration when he has not been furnished for a week with a copy of the Report; and such objection shall prevail unless the President, in exercise of his power to suspend any of these rules, allows the Report to be taken into consideration.

Form in which clauses of Bill to be considered.

42. (1) When a Report is taken into consideration, it may be moved that the clauses of the Bill be considered for settlement in the form recommended by the Select Committee; and, if the motion be carried, the clauses shall be so considered.

(2) If no such motion is carried, the clauses shall be considered for settlement in the form in which they stood when the Bill was introduced in Council.

PART VII.—*Consideration and Amendment of Bills.*

Proposal of amendments.

43. When a Bill is taken into consideration by the Council any Member may, subject to the provisions of rules 22, 23, 27 (2) and 28, propose an amendment of such Bill.

Order of considering amendments.

44. Amendments shall ordinarily be considered in the order of the clauses to which they respectively relate.

Submission of Bill clause by clause.

45. (1) Notwithstanding anything in the foregoing rules, it shall be in the discretion of the President, when a motion that a Bill be taken into consideration has been carried, to submit the Bill, or any part of the Bill, to the Council, clause by clause.

(2) When that procedure is adopted, the President shall call each clause separately, and, when the amendments relating to it have been dealt with, shall put the question "that this clause (*or*, as the case may be, this clause, as amended) stand part of the Bill."

Re-publication or re-commitment of amended Bill.

46. (1) Any Member may move that a Bill which has been amended by the Council or by a Select Committee be republished or be recommitted to the Select Committee.

(2) Such recommitment may be either—

(a) without limitation, or

(b) with respect to particular clauses or amendments only, or

(c) with instructions to the Select Committee to make some particular or additional provision in the Bill.

(3) If the Council so decide, the President may order that the Bill be republished or recommitted, as the case may be.

PART VIII.—*Passing of Bills and Publication of Acts.*

Passing of Bills.

47. (1) If no amendment be made when a Bill is taken into consideration by the Council, the Bill may at once be passed.

(2) If any amendment be made, any Member may object to the passing of the Bill at the same meeting; and such objection shall prevail, unless the President, in exercise of his power to suspend any of these rules, allows the Bill to pass.

(3) Where the objection prevails, the Bill shall be brought forward again at a future meeting, and may then be passed, with or without further amendment.

Revision of marginal notes, and submission of Bill to Governor.

48. When a Bill is passed by the Council, the Secretary shall, if necessary, revise and complete the marginal notes thereof, and shall submit it to the Governor for his assent.

Submission of Bill to Government of India.

49. (1) If the Governor assents to a Bill, as defined in sub-clause (i) of clause (5) of rule 2, the Secretary shall submit it to the Government of India for the assent of the Governor General.

(2) If the Governor assents to a Bill, as defined in sub-clause (ii) of clause (5) of rule 2, the Secretary shall submit it to the Government of India for information.

Publication of Bills as Acts.

50. If the Governor General assents to a Bill, as defined in sub-clause (i) of clause (5) of rule 2, it shall be published in the Calcutta Gazette as an Act of the Governor in Council of Fort William in Bengal assented to by the Governor General.

PART IX.—*Duties of Secretary.*

List of Business for each meeting.

51. At least two days before each meeting of the Council, the Secretary shall send to each Member a list of the business to be brought forward at such meeting:

Provided that, if motions of amendment are numerous, they or any of them may be entered in an Appendix to the said list, to be sent to each Member at least one day before the meeting.

Journal.

52. (1) The Secretary shall keep a journal, in which all the proceedings of the Council shall be fairly entered.

(2) The journal shall be submitted after each meeting to the President for his confirmation and signature; and, when so signed, shall be the record of the proceedings of the Council.

Full report of proceedings.

53. (1) The Secretary shall also cause to be prepared a full report of the proceedings of the Council at each of its meetings, and publish it in the Calcutta Gazette as soon as practicable.

(2) He shall send a copy of such report to each Member of the Council and to the Permanent Under-Secretary of State for India.

Other duties.

54. In addition to the other duties specially imposed upon him by these rules, it shall be the duty of the Secretary—

(1) to draft all Bills originated by the Government of Bengal, the Statements of their Objects and Reasons, and the Reports of Select Committees to which such Bills are referred;

(2) to take charge of the copies of Bills signed by the Governor and Governor General, and of all other records of the Council;

(3) to keep the books of the Council;

(4) to keep a list of the business for the time being before the Council;

(5) to superintend the printing of all papers printed in pursuance of these rules;

(6) to make out from time to time a list of all Select Committees' sittings;

(7) to assist the Council and all Committees in such manner as they may direct;

(8) to examine all Bills deposited by Additional Members, and to report to the President any such Bill which contains clauses trenching on subjects coming within section 38, section 42, or section 43 of the Indian Councils Act, 1861; and 24 Vict., c

(9) to write all letters which the Council or the President or any Select Committee directs to be written.

PART X.—*Miscellaneous.*

Admission of strangers.

55. (1) Strangers may be admitted into the Council Chamber during any meeting of the Council, on the order of the President.

(2) Application for orders of admission must be made, through a Member, to the Secretary, at least two days before the meeting; and the order, if made, shall be sent to such Member.

Withdrawal of strangers.

56. The President, whether on the application of any Member or otherwise, may direct, at any time during a meeting of the Council, that strangers withdraw.

Publication and sale of papers.

57. (1) Any paper relating to any measure before the Council may be published by order of the President.

(2) Copies of papers so published shall be sold at such rates as may be fixed by the Secretary.

Withdrawal of Bills.

58. (1) At any time during the progress of a Bill, it may be moved by the Member who for the time being is in charge of the Bill that it be withdrawn.

(2) If such motion be carried, the Bill shall be withdrawn accordingly.

Dropped Bills.

59. Any Bill respecting which no motion has been made in the Council for two years may, by order of the President, be removed from the list of business referred to in rule 54, clause (4).

Suspension of rules.

60. The President, for sufficient reason, and whether upon the application of a Member or otherwise, may suspend any of the foregoing rules for a particular purpose.

RESOLUTION REVIEWING THE REPORTS ON THE WORKING OF MUNICIPALITIES IN THE BENGAL PRESIDENCY (EXCEPT CALCUTTA) DURING THE YEAR 1911-12.

MUNICIPAL DEPARTMENT.

MUNICIPAL.

CALCUTTA, THE 20TH DECEMBER 1912

RESOLUTION—No. 1837M.

READ—

The Reports from the Commissioners of Divisions on the working of Municipalities in the Bengal Presidency (except Calcutta) during the year 1911-12.

THE reports have been prepared for the Presidency as it stands after 1st April 1912, and therefore though the figures for divisions and for individual

municipalities can be usefully compared with those of previous years, the Provincial figures throw little light on the general question of municipal progress. A perusal of the reports leaves the impression that, while municipal administration in Bengal has achieved a very considerable and creditable amount of success, it has not kept pace with the progress that has been so noticeable in other directions in the last few years. Generally, the rate-payers seem to have been rather apathetic, and, where a keen interest has been displayed, party spirit has often taken the place of that public spirit which is so essential to real municipal self-government. It is however gratifying, to observe that some of the large municipalities—Howrah, Cossipore-Chitpur, Dacca, Darjeeling, Kurseong and others—have shown great energy in grappling with the problems presented to them, and considerable appreciation of the true ideals of municipal administration, but the majority have not shown any great anxiety to improve their present condition, have often too readily accepted the usual plea of poverty, and have shown a disposition to wait till improvements are forced upon them. A hopeful sign is the increasing extent to which Municipal Commissioners recognize that their duties and responsibilities are not confined to attendance at meetings; while spasmodic interference with the working of the municipal machine may often do more harm than good, the willingness of Municipal Commissioners to give their services freely to the municipality under an organized system of division of the work of supervision can only lead to good results. Sanitation is the chief work of municipalities, and, largely owing to liberal grants from Government, very considerable progress has been made in the improvement of the urban water-supply in the last few years and many municipalities have undertaken costly schemes of surface drainage; the influence of such works on the public health and convenience cannot be overestimated, and His Excellency trusts that every municipality will endeavour to provide itself with a pure water-supply and, wherever practicable, with an efficient drainage system. These are undoubtedly the two most important requirements of sanitation in the province, but they do not by any means exhaust its demands. There are constant complaints from all the divisions that the present system of conservancy leaves much to be desired. Inadequate attention is given to the cleansing of drains and tanks, jungle-cutting, and the filling-up of insanitary hollows, and the demand is growing for the supervision and inspection of food-supplies and the conditions under which they are sold. The great drawback hitherto has been the lack of a trained executive agency for general sanitation, but steps have now been taken to provide a service of Health Officers and Sanitary Inspectors for employment in municipalities, and it is hoped that Municipal Commissioners will welcome the opportunity of obtaining a trained sanitary agency which will undoubtedly be more efficient and will probably be very little more expensive. Even after sanitation has been provided for, there is a wide scope for the further extension of municipal activities, and the only practical limits are those imposed by financial considerations. The general scale of municipal taxation throughout the province is by no means excessive, and is lower than that which prevails in other provinces; the percentage of rate-payers to the municipal population is also low, and it is reported that the burden is not always equitably distributed. The first essential is a fair distribution of the incidence of municipal taxation, and experience has shown that this can best be effected by an assessment of a carefully selected officer whose work the Commissioners are willing to accept, unless very good reasons are shown for interference in particular cases. Equally important is the organization of an efficient Collection Department; when the rates that it is considered reasonable to levy from individuals have been fixed, there is no reason why the collections should not be made punctually and in full, and there should be but little scope for arrears or remissions. There is little doubt that these measures would considerably improve the financial condition of many of the municipalities without any increase in the present rates, while there would still remain in many cases a reasonable margin for further taxation. The advantages of efficient municipal administration are local, and if the people concerned

desire these advantages they must be prepared to pay for them; it is not reasonable for them to expect that these advantages should be secured to them at the expense of the general tax-payer.

2. The reconstitution of the province from the 1st April 1912 has resulted in a decrease of 19 in the total number of municipalities in Bengal; 54 out of the 130 referred to in last year's resolution have been transferred to the new province of Bihar and Orissa, while 35 previously in Eastern Bengal and Assam are now within the boundaries of this Presidency. No new municipalities were established during the year, but a proposal to constitute a municipality at Bhola is at present under consideration.

3. *Results of elections held during the year.*—The elective system was extended during the year to Sonamukhi in Bankura, Kamarhati in 24-Parganas and Chakdah in Nadia. There were general elections held in 24 municipalities, and a fair amount of interest was taken in them by the rate-payers; the percentage of attendance of voters in Western Bengal varied from 80 to 27, but it must be remembered that the percentage of rate-payers to population in the whole province was only 15·9, while it is reported that, in the Presidency Division, only 66 per cent. of the rate-payers pay not less than 6 annas a quarter, which is the minimum rate necessary to qualify for a vote. The elections at Barisal were declared invalid by the District Magistrate, owing to certain irregularities in the poll.

4. *Number of meetings and attendance of Commissioners.*—The total number of meetings held was 1,980 against 1,879 in the previous year. Of these 146 had to be adjourned owing to there being no quorum. Eight municipalities—Sonamukhi, Ramjibanpur, Rajpur, Garulia, Kandi, Basirhat, Cox's Bazar and Jalpaiguri—failed to hold 12 meetings in the year, while in Suri, Ranagha, Kushtia, Jangipur, Khulna, Mymensingh, Comilla and Pabna the interest in municipal affairs, as judged by the attendance of Municipal Commissioners at meeting, was not very great. On the other hand, in 72 municipalities the average attendance was over 50 per cent. and at North Barrackpore, Bhatpara, Baduria and Patuakali three-quarters of the Commissioners attended every meeting.

5. *Number of rate-payers.*—The total number of rate-payers rose from 311,798 to 312,338, and the percentage of rate-payers to population was 15·9. The percentage was lowest in Titagarh (3·5), Garulia (5·2), Bhatpara (5·9), Bhadreswar (6·2), Garden Reach (8·8) and Narayanganj (8·9). The low percentage in Narayanganj, one of the most advanced and thriving municipalities in the province, is explained by the presence in the town of a large number of factory labourers whose rates are paid by their employers. The decrease of 494 rate-payers in Kamarhati was mainly due to the discontinuance of the former practice of counting owners of arable holdings as separate rate-payers. In the Bhadreswar Municipality, the number of rate-payers fell from 2,455 to 1,525, but the decrease has not been explained.

6. *Assessment and taxation.*—In 37 municipalities and in certain wards of the Bhadreswar, South Dum-Dum, South Barrackpore and Rampur Boalia Municipalities the rate on holdings is the principal form of taxation. In 70 municipalities and in the remaining portions of the four municipalities mentioned above a tax on persons was in force. In addition latrine-fees were levied in 92 municipalities, a water-rate in 14 and a lighting-rate in 4 The average incidence of taxation per head of population for the whole province was Re. 1-14-8 as compared with Re. 1-12-7 during 1910-11, the increase being shared by all the divisions. Omitting the hill municipalities of Darjeeling and Kurseong where the incidence was Rs. 8-3-7 and Rs. 4-15-4, respectively, it varied from Rs. 4-15-3 in the Cossipore-Chitpur Municipality to annas 4-4 in Debhatta. The Presidency Division, where the greatest demand for a progressive municipal administration might be expected, still shows the lowest incidence of taxation though it has risen from Re. 1-7-6 to Re. 1-10-1, and many municipalities appear to regard municipal improvement as too expensive a luxury.

7. *Revision of assessments.*—A general or partial revision was made in 82 municipalities, with noticeably satisfactory results in the following instances :—

	Increase of revenue.
	Rs.
Howrah	17,282
Budge-Budge	12,880
Dacca	8,621
South Suburban	7,560
Tollyganj	5,450
Darjeeling	4,900
Narayanganj	4,684
Man ktala	3,778
Cossipore-Chitpur	3,412
Dinajpur	3,173
Burdwan	3,040

In the Midnapore Municipality the assessment was found to be insufficient and inequitable, and after the close of the year an order has been passed under section 111A of the Bengal Municipal Act, 1884, requiring the municipality to revise and amend the assessment. At the request of the Municipal Commissioners a Sub-Deputy Collector has been deputed for the work.

8. *Collections.*—The percentage of total collections on current demand was 97·8 compared with 94·7 in the previous year. The improvement was common to all divisions and it was most marked in the Dacca and Rajshahi Divisions where 102·4 and 97·6 per cent. were collected as against 88·3 and 90·5 per cent., respectively, in 1910-11. Of individual municipalities those showing the best results were Khirpai (117·2), Raniganj (114·06), Dacca (108·7), Halisahar (106·2) and Patuakhali (105·0). The Garulia Municipality succeeded in collecting the entire amount of its demand, and showed neither remissions nor outstandings at the close of the year. Twenty-one municipalities against 13 in 1910-11 were able to show collections of cent. per cent. and over, while in the Debhatta, Hooghly-Chinsura, Rampur Boalia, Chandrakona and South Suburban Municipalities, the collections declined by about 72, 22, 15, 14 and 12 per cent., respectively. The percentage of total remissions on current demand rose from 3·0 to 4·1 and the Provincial figure was greatly exceeded in the Garden Reach (37·5), Dhulian (25·4), Halisahar (19·3) and Burdwan (15·4) Municipalities. Though the outstanding balances in Dacca and Burdwan declined by Rs. 32,694 and Rs. 11,294, respectively, they still amounted to Rs. 20,803 and Rs. 17,928 at the end of the year. Large outstanding balances were also shown by the municipalities of Hooghly-Chinsura (Rs. 18,656), Mymensingh (Rs. 17,177) and Maniktala (Rs. 11,516), and ten municipalities showed unrecovered balances of Rs. 5,000 or more. Attention is again invited to the following remarks made by the Government of Bengal in paragraph 7 of its Resolution reviewing the reports for 1910-11 :—

"With municipal revenues made up, as they are, of a multitude of petty items, it cannot be too strongly insisted upon that the only hope of efficient collections is promptitude in realising what can be paid, and the writing off forthwith of what is irrecoverable; the accumulation of heavy arrears upon the books impedes the administration at every turn, and it is well worth while to employ a temporary special staff if the accounts can thereby be brought up to date. It is hoped that the matter will receive the special attention of all concerned."

9. *Income and Expenditure.*—The total receipts of the municipalities in the province including the opening balances amounted to Rs. 78,08,730 as compared with Rs. 75,31,496. The increase occurred chiefly under the following heads :—

	Rs.
Opening balance	53,105
Municipal rates and taxes	2,48,325
Sources other than taxation, loans and advances	56,373

The total disbursements amounted to Rs. 59,76,731 as against Rs. 60,77,206 in the previous year. There was a decrease of Rs. 3,60,242 under the head "Extraordinary and Debt" while increased expenditure was incurred under the heads "Public health and convenience" (Rs. 1,84,265), "Miscellaneous" (Rs. 38,892) and "General administration and collection charges" (Rs. 21,894).

10. *Closing balances.*—The closing balances rose from Rs. 14,54,290 to Rs. 18,31,999. The largest balances were held by Howrah (Rs. 4,40,446), Hooghly-Chinsura (Rs. 1,57,768) and Burdwan (Rs. 1,10,126). The increase in Burdwan was due to abnormal receipts by way of contributions on account of drainage scheme. In Hooghly-Chinsura it was due to non-payment of money owing for the water-works.

11. *Income (Rs. 63,54,253).*—The total income of the year excluding that under the heads of "Opening balance" and "Extraordinary and Debt" amounted to Rs. 50,85,013 showing an increase of Rs. 1,67,756 over the figures of the preceding year. Details of the main items of revenue are given below.

12. *Taxes on houses and lands (Rs. 14,23,662).*—Under this head there was an increase of Rs. 1,29,221, of which Rs. 54,637 was due to collection of large arrears in Dacca and Rs. 36,183 to better collections and the revision of assessments in Garden Reach.

13. *Tolls on roads and ferries (Rs. 88,194).*—This source of revenue becomes every year of less and less importance to municipalities. The receipts fluctuate from year to year, but the tendency on the whole is downward chiefly owing to the improvement of communications and increased facilities for railway and steamer traffic.

14. *Water-rate (Rs. 5,08,616).*—This rate was levied in 14 municipalities and the total receipts showed an increase of Rs. 65,483. The increase at Dacca (Rs. 27,516), however, was only nominal as the rate was only in force for a portion of the previous year. The settlement of their dispute with the Port Commissioners has enabled the Garden Reach Municipality to show an increase of Rs. 14,378. The only other large increase was in Maniktala where the enhancement of the rate from the second quarter and the assessment of new and improved holdings resulted in an increase of Rs. 10,086, but a portion of this was illegally levied and will have to be refunded. As the water-rate is a direct payment for benefit received, it should in all cases be sufficient to fully pay the cost of the water-works up-keep and loan charges leaving the general tax free for general sanitation and improvement.

15. *Lighting rate (Rs. 1,55,677).*—The rate is levied only in the four municipalities of Howrah, Cossipore-Chitpur, Maniktala and Darjeeling. The receipts under this head rose by Rs. 8,344. The Darjeeling Municipality has credited the receipts from this source amounting to Rs. 45,397 to the head "Electric light installation" and these have been shown in column 35(*b*) of Form II headed "Other fees."

16. *Conservancy (including scavenging and latrine rates (Rs. 9,48,624).*—The income under this head shows an increase of Rs. 39,975 mainly in the Dacca Division (Rs. 21,872). The receipts from the sale of night-soil and the disposal of refuse and street sweepings are still very small (Rs. 2,323) and are slightly lower than in the previous year. In other provinces some municipalities make a considerable revenue from this source and even allowing for the difference of conditions it does not seem that the municipalities in this province have yet realised the agricultural value of this refuse and the possibility of increasing their income from this source. In Eastern Bengal the receipts are not shown separately, but this should be done in future.

17. *Tax on persons according to their circumstances and property and the tax on professions and trades.*—The receipts from the tax on persons increased from Rs. 3,69,094 to Rs. 3,70,376, while those from the tax on professions and trades declined from Rs. 57,659 to Rs. 57,110. The variations were slight and call for no remarks.

18. *Receipts under Hackney Carriage Act (Rs. 15,046).*—Fifty-three municipalities as compared with 51 in the previous year derived an income under this head, the aggregate amount showing an inprovement of Rs. 2,294 over the revenue of the previous year. The municipalities of Kamarhati, Halisahar and Kishorganj against which receipts were shown in the preceding year derived no income from this source during the year under review.

19. *Prevention of cruelty to animals.*—The fines realised under Act I (B. C.) of 1869 or Act XI of 1890 and credited to municipal funds in the Burdwan and Presidency Divisions amounted to Rs. 4,313. Fines realized in Howrah were made over to a special committee and those in the district of Darjeeling to the Society for the prevention of cruelty to animals working in that district. Under the orders of the Government of India the arrangements under which the municipalities in Eastern Bengal enjoy the income from this source have been made permanent and these receipts are not specified in the divisional reports.

20. *Grants from Provincial and Local Funds and contributions from private individuals. (Rs. 7,05,550).*—The receipts under this head show a decline of Rs. 48,378. The most noticeable grants made by Government during the year were to the municipalities of Howrah (Rs. 2,50,000 for the extension of the water-supply), Hooghly-Chinsura (Rs. 50,000 for water-supply), Dacca (Rs. 40,000 for the improvement of the conservancy tramway line and for the improvement of the pathways giving access to private privies), Chittagong (Rs. 20,000 for general improvement), Midnapore (Rs. 11,907 for education), South Suburban (Rs. 11,700) for water-supply), Serampore (Rs. 10,000 for water-supply), Bhatpara (Rs. 10,000 for drainage), Jessore (Rs. 10,000 for water-supply), Chandpur (Rs. 8,180 for the old bazar water-works), Ranaghat (Rs. 7,000 for drainage) and Comilla (Rs. 7,000 for the survey of the town). There were few striking instances of private liberality during the year, but the following deserve special mention:—Rai Jyot Kumar Mukharji Bahadur made a donation of Rs. 35,000 towards the water-supply scheme at Uttarpara and the Maharajadhiraja of Burdwan contributed Rs. 10,000 for the drainage scheme at Burdwan. The Midnapore Municipality received Rs. 13,669 from the King Edward Memorial Fund for the construction of a new ward of the Pierce Hospital. In the Kotrung Municipality Babu Kristo Nath Mukharji of Barrackpore is reported to have erected a *pucca* bathing *ghât* at Shiotala at a cost of Rs. 25,000 for the use of the public.

21. *Expenditure—Office and collection establishment (Rs. 3,30,082).*—The total expenditure under this head showed an increase of Rs. 16,433. The percentage calculated on the total ordinary expenditure was highest in Taki (25·3), Nalchiti, Debhata and Bazitpur following with 22·3, 22·1 and 21·1, respectively. The high percentage in Taki is due to the cost of the assessment of the municipality carried out during the year. It is satisfactory that the percentage in the new municipality of Dhulian has been further reduced to 13·7 from 18·5 in the previous year and 39·7 in 1909-10.

22. *Prevention of fire (Rs. 59,073)*:—As in the preceding year 23 municipalities showed expenditure under this head, that incurred by Howrah (Rs. 21,481), Cossipore-Chitpur (Rs. 28,420), Maniktala (Rs. 2,824) and Garden Reach (Rs. 4,707) representing the amount contributed towards the maintenance of the Metropolitan Fire Brigade. In comparison with the expenditure of the previous year the expenditure showed an increase of Rs. 10,492.

23. *Lighting (Rs. 2,79,603).*—The expenditure under this head showed a small increase of Rs. 2,519. As in the previous year the municipalities of North Barrackpore, Taki, Birnagar, Chakdah and Debhatta did not incur any outlay at all on this important branch of administration, and although the attention of the local officers was drawn to the same omission in the last resolution no explanation has been offered. The South Barrackpore Municipality which spent a small amount under this head in the previous year did not spend anything in 1911-12. The lighting is reported to be defective in many municipalities and complaints are specially made regarding Bankura and Hooghly-Chinsura. The matter is one that directly affects the convenience and safety of the inhabitants and it is hoped that all municipalities will pay greater attention to it in future.

24. *Water-supply. (Rs. 6,35,870).*—The expenditure under this head rose by Rs. 1,70,822 and the bulk of the increase (Rs. 1,53,781) occurred under the head "Capital outlay." The outlay under the head "Establishment, repairs, etc.," declined in the Dacca and Rajshahi Divisions. The most important scheme undertaken is the extension and improvement of the water-supply of Howrah which is now estimated to cost Rs. 16,97,162. Government promised to contribute Rs. 5,00,000 and half of the contribution was paid during the year. The Jessore water-supply scheme is expected to be

completed during the current year. At Narayanganj the Municipal Commissioners have recently erected a second pump, for which a project amounting to Rs. 25,000 was sanctioned by the late Government of Eastern Bengal and Assam. The Mymensingh water-works were improved at a cost of Rs. 60,303 by the installation of a new engine and a boiler and the construction of a third sand filter-bed. The work in connection with the water-supply schemes at Hooghly-Chinsura, Serampore, Perojpur and Khulna was in progress, while schemes for Uttarpara and for the extension of the Narayanganj water-supply to the east side of the river Lakhya were under preparation during the year. A regular system of water-works has been initiated at Chandpur for which the Government has recently sanctioned a loan of Rs. 15,000. The Barisal water-works to which Government has largely contributed were opened during the year, but they were not completed owing to the failure to collect Rs. 8,000 out of the promised local subscriptions. The Sanitary Engineer reports that the works will be a failure unless they are completed in accordance with the scheme, and it is incumbent on the municipality to rouse sufficient public spirit to prevent this catastrophe. A scheme for water-supply at Nator on what is known as the "Faridpur system" is under the consideration of the Municipal Commissioners.

The reports show that there is a danger of municipalities overlooking the limitations of a water-supply scheme. After completion the works require constant and skilled supervision, and it is most wasteful to stint the expenditure on up-keep or employ a cheap supervising agency. But a greater danger is a disregard of the limit of the capacity of the pumping plant or filter beds; a scheme designed to deliver a fixed maximum of gallons cannot be forced to deliver more without endangering all the works. The commonest form of improvidence in this direction is a too liberal grant of unmetered house-connections with the consequent inevitable waste of water, and Mymensingh and Dacca have both experienced trouble in this way. The provision of a meter in all house-connections as provided for in the model rules is a most important safeguard againt waste and enables the benefits of a water-supply to be far more wide reaching than they can possibily be when so much of the water is wasted by the comparatively small number of fortunate people who obtain house-connections.

25. *Drainage* (*Rs. 2,82,507*).—The total capital outlay declined from Rs. 2,33,651 to Rs. 1,65,933, while the expenditure on account of establishment, repairs, etc., rose from Rs. 1,15,636 to Rs. 1,16,574. The Municipality of Howrah incurred the largest capital expenditure, viz., Rs. 59,358. Schemes were under consideration at Dacca, Mymensingh and Suri. Drainage projects for Ranaghat and Kushtia have been sanctioned and the work will be commenced shortly. Administrative approval of Government was conveyed to the Katwa drainage scheme and to the combined drainage and water-supply scheme for Bankura. The detailed plans and estimates for the latter have since been sanctioned. The Baruipur scheme and the second portion of the Bhatpara scheme were completed during the year under review, and the Burdwan Municipality has taken up the work in connection with the drainage of the town according to a modified scheme costing Rs. 1,50,000. The drainage work of the Serampore Municipality will be taken up as soon as the water-supply scheme is completed, while the undertaking at Hooghly-Chinsura has been postponed indefinitely in view of the large expenditure on the water-works now in progress. The Baranagar Municipality completed its drainage with the exception of the outfall channel and the sluice at the mouth of the Dantia khal. The municipalities connected with the Bagjolla khal project are considering a revised scheme. In this connection the following remarks of the Commissioner of the Presidency Division are of interest :—

"No work of importance under this head was carried out in the districts of Jessore and Khulna. The district reports do not show that the municipalities in these two districts, and the smaller ones in the other districts, made any systematic effort to carry out drainage schemes. Their resources are limited; and unless they make a genuine effort to expand their income by increased taxation they cannot expect to undertake any expensive scheme of improvement. It may be said generally of the mufassal municipalities that the prevailing tendency is to keep down taxation as low as possible, and the natural consequence is that though many of them have long been in existence very few have done much to effect any real sanitary improvement."

26. *Conservancy (including road-cleaning and road-watering) and latrines (Rs. 14,59,739).*—The expenditure under this head shows an increase of Rs. 1,03,914. It rose in 66 municipalities, the most noticeable increase being in Dacca (Rs. 63,194) and Howrah (Rs. 22,397). The increase in the former was due to improvements to the conservancy tramway line. The difficulties in the way of efficient conservancy are great and this branch of administration is weak in most municipalities, special complaints being made in Hooghly-Chinsura, Krishnagar, Bankura, Berhampore and Dacca where the difficulties are specially great. It is in the matter of conservancy that the utility of trained Sanitary Inspectors will be most apparent, and it may be anticipated that as soon as these are ready for employment a general advance will be made in conservancy arrangements which will be much appreciated by the rate-payers.

27. *Hospitals and dispensaries (Rs. 2,88,204).*—The expenditure under this head declined in all the divisions, the total decrease being Rs. 85,093. It rose in 39 municipalities only, while in the rest it was either stationary or showed a decrease. The decrease was most marked in Burdwan, viz., Rs. 42,107, but it was mainly due to the fact that in the previous year the municipality contributed a sum of Rs. 40,000 towards the construction of the new Fraser Hospital which raised its medical expenditure abnormally. In other Municipalities the decrease was due either to less expenditure on the construction of new buildings or to an adjustment of accounts during the year. The provision of local medical aid is one of the duties of local bodies, and there is no reason to suppose that the decrease in expenditure is due to a decrease in local needs or to private charity taking the place of municipal subventions. The advance in the standard of medical requirements must involve increased expenditure and economy on hospitals and dispensaries must act very hardly on the poorer inhabitants of the municipalities and cannot be without its effect on the general health of the towns.

28. *Plague and other epidemic disease charges (Rs. 17,705).*—The expenditure under this head was incurred only in the Burdwan and Presidency Divisions. It rose in the former but fell in the latter, resulting in a net decrease of Rs. 2,588. The increase in the Burdwan Division was chiefly due to an outbreak of plague in Burdwan town.

29. *Public works (Rs. 7,97,025).*—The expenditure under this head showed an increase of Rs. 18,429 over the figures of the previous year. The increase occurred under all the sub-heads except "Buildings" under which the expenditure fell from Rs. 96,389 to Rs. 61,839. In 33 municipalities in the province the percentage borne by the outlay on public works on the total ordinary expenditure was 25 per cent. or more, and the rate varied from 54·7 in the Dhulian Municipality to 2·2 in Kurseong. It was unduly small in Garulia (4·4), Ramjibanpur (5·4) and Suri (5·7). The condition of the roads in Berhampore and Krishnagar is reported to be unsatisfactory.

30. *Public instructions (Rs. 1,59,023).*—The total expenditure rose by Rs. 5,150 as compared with the previous year, the increase being common to all the divisions except Rajshâhi. The ratio of expenditure on primary education to the total ordinary income of the municipalities in the Burdwan and Presidency Divisions and of the municipalities of Darjeeling and Kurseong varied from 12·6 in Debhatta to ·78 in Darjeeling. Of these 30 municipalities spent less than 3·2 per cent. of their ordinary income on primary education.

31. *Loans.*—Forty municipalities were in debt at the close of the year and their total indebtedness, after deducting Rs. 4,909, the amount of the sinking fund investments of the Burdwan Municipality on account of loans raised in the open market, was Rs. 40,08,654. The largest outstanding liabilities were those of Howrah (Rs. 21,09,452), Darjeeling (Rs. 7,19,081), Dacca (Rs. 3,35,359), and Narayanganj (Rs. 1,53,686). Twelve municipalities received loans during the year, namely, Darjeeling (Rs. 1,43,000 for the construction of bazar barracks and for water-supply and drainage), Howrah (Rs. 35,000 for the extension of the water-works), Jessore (Rs. 30,000 for water-supply), Narayanganj (Rs. 25,000 for water-works), Dacca (Rs. 20,000 for the improvement of the conservancy tramway line), Ranaghat (Rs. 16,000 for drainage), Baranagar (Rs. 15,000 for drainage), Garulia (Rs. 10,000 for drainage), Budge-Budge (Rs. 5,000 for the extension of the trenching-ground), Khulna (Rs. 5,000 for water-supply), Maheshpur (Rs. 1,250 for water-supply) and Bansberia (Rs. 1,200 for the construction of office buildings).

32. On 31st March 1912, 58 municipalities in the Burdwan and Presidency Divisions together with Darjeeling and Kurseong in the Rajshahi Division had outstanding liabilities on account of unpaid bills and unfinished works amounting to Rs. 71,267 which represented 2·8 per cent. of their current demand. In four municipalities, viz., Kamarhati, Baduria, Satkhira and Vishnupur, the outstanding liabilities exceeded the closing balance.

33. *Audit of accounts and embezzlement.*—Embezzlements were detected in the municipalities of South Suburban, Nadia, Bhadreswar and Kotechandpur. No case of misappropriation has been reported from the Eastern Bengal divisions.

34. *Howrah.*—The record of the Howrah Municipality during the year has been one of great progress. The ordinary revenue of the year was Rs. 8,87,728 and the collections amounted to 99·84 of the net current demand leaving a total outstanding balance of Rs. 3,333 only at the close of the year. The ordinary expenditure was Rs. 7,99,028 leaving a surplus of revenue over expenditure of Rs. 88,700. The outstanding debt is Rs. 21,09,152, and the municipality is committed to improvement schemes which will absorb the growing revenues for some time. The extension of the water-works at a cost of nearly 17 lakhs is in progress and will provide for an immediate increase of supply from 1¾ to 5 million gallons with an ultimate supply of 8 million gallons. The surface drainage scheme is progressing and will eventually cost 19 lakhs, while the sewerage scheme, which must be undertaken as soon as the municipality has finished the water-supply and drainage, will cost 20 lakhs. Much no doubt remains to be done and the cleanliness of Howrah is of great importance to Calcutta, but great credit is due to the Commissioners for the work already done and they have shown that they fully realise their responsibility and are prepared to grapple with the difficulties. An application has been made to Government to extend certain sections of the Calcutta Municipal Act to Howrah to enable the Commissioners to deal with the evils that have been experienced in Calcutta. Road repair which has been somewhat neglected in the past has now been taken up systematically and the Commissioners have decided to light the town with electricity in future.

35. The general record of the year's municipal administration is reviewed by the Divisional Commissioners and there are no very striking features. In the Burdwan Division, Burdwan and Midnapore are again unfavourably mentioned as the worst administered towns in the division and Hooghly-Chinsura and Bankura have both very great room for improvement while in Uttarpara party feeling still exists to a deplorable extent. The assessment at Midnapore is being revised by a especially selected officer and the probable increase of income should be followed by very considerably increased efficiency. In the Presidency Division most of the advanced municipalities conducted their affairs with credit to themselves, but the Maniktala, South Suburban and Krishnagar Municipalities leave very much to be desired and the administration in Taki, Nadia and Debhatta was much hampered by the existence of strong party feeling. In the Dacca Division Narayanganj has enhanced its reputation for efficient management, but Barisal seems likely to get into financial difficulties unless a more careful and reasonable system of administration is adopted. In the Rajshahi Division, Darjeeling, Kurseong, Dinajpur and Bogra have been well administered, and the municipalities in the Chittagong Division are reported to be satisfactory. All the Commissioners of Divisions are impressed by the languid interest taken generally in the affairs of the smaller municipalities and by the influence of the fear of unpopularity in retarding sanitary improvement.

36. Under Government circular No. 2 T.—M., dated the 20th April 1910, the municipalities of Burdwan, Howarh, Cossipore-Chitpur and Maniktala were allowed a free hand in framing their budgets according to their discretion. The manner in which these municipalities utilised the concession during the year under review has not been reported by the Commissioners concerned, although a special notice of the matter in future reports was specifically enjoined in the Resolution for 1910-11.

37. The acknowledgments of Government are due to the following gentlemen whose names have been mentioned in the reports of the Divisional Commissioners for the good work done by them :—

RESOLUTION ON THE REPORT ON THE WORKING OF CO-OPERATIVE SOCIETIES IN BENGAL FOR THE YEAR 1911-12.

CALCUTTA, THE 23RD DECEMBER 1912.

RESOLUTION—No. 1431M.R.

The Report on the Working of Co-operative Societies in Bengal for the year 1911-12.

THE report for the year 1911-12 deals with the working of co-operative societies in the districts of the Burdwan, Presidency, Dacca, Chittagong and Rajshahi Divisions, which now constitute the Presidency of Bengal. In the former province of Bengal the official year of the department ended on the 31st March, whereas in Eastern Bengal and Assam it closed on the 30th June. For the purposes of the present report, the year ending on the 30th June has been adopted, so that, so far as the Presidency and Burdwan Divisions are concerned, it covers a period of 15 months.

The late Mr. Buchan and Mr. Scott were Registrars of the department in Bengal and in Eastern Bengal and Assam, respectively, up to the 31st March 1912, and the former continued to hold charge in the reconstituted province of Bengal till the 26th June, when he went on leave and was succeeded by Mr. J. M. Mitra, his Personal Assistant.

2. The report is a record of steady progress, and indicates that the benefits of the co-operative movement are gradually becoming better known to the people of Bengal. During the past year the number of societies in the province has risen from 718 to 943, and the number of members from 29,506 to 38,569, an increase in each case of about 30 per cent.; while the working capital, excluding the value of grain, has risen from Rs. 14,96,833 to Rs. 26,07,573, or by 74 per cent.

3. While, however, these numerical increases are important and satisfactory, the report clearly shows that at the present stage special attention must be paid to the work of consolidation. One of the chief considerations in forming societies during the initial stages of the movement was necessarily the existence of a local demand or the presence in the neighbourhood of persons willing and able to foster the growth of the infant societies and to supervise their management. It has not hitherto been possible to deal effectively with the relation of individual societies to one another. It is now, however, clear that another stage in the evolution of the movement has been reached, and that future expansion must depend, not so much on the creation of individual societies in isolated places, as on the formation of associations of societies within definite areas, which will not only beget new societies, but will also provide that supervision and control over the organization and financing of individual societies which it would be impossible, even if it were desirable, to supply through the medium of Government agency. Great interest therefore attaches to the growth of central unions, of which seven have already been established in different parts of the province. They are not all organized on the same lines, and some of them have defects to which the Registrar is fully alive, but the Governor in Council agrees with the Registrar that their working so far gives ground for confidence that the development of the movement on sound lines is assured. His Excellency

in Council trusts that the present year will show a still further increase of central co-operative unions, particularly in the eastern districts of the Presidency.

4. The co-operative movement in urban areas, though perhaps of less moment and interest than that among the rural population, is evidently proving of great benefit to a certain proportion of the inhabitants of towns and large villages. The number of societies has increased during the year from 47 to 61, and the number of members from 6,727 to 9,557, while their working capital exceeds 8 lakhs. Many of the societies are however but little imbued with the true co-operative spirit, and some of them, which do not limit their rate of dividend, appear to be in danger of succumbing to the tendency to become mere joint-stock associations. It is reported that in some cases a dividend of 20 per cent. has been paid, and that the societies are reluctant to admit new members, thus showing clearly that they exist for the benefit of their shareholders and not for that of the borrowers, who supply the greater part of the profits. The new Act, which was passed during the year, enables rules to be framed fixing the maximum rate of dividend, and the proposals which the Registrar is drawing up on this question will receive the careful consideration of Government. Measures of this nature, even though they may involve the removal of some of these societies from the list of co-operative societies, should lead to the restoration of a real co-operative spirit among the rest.

5. In rural areas there has been steady progress, and the suitability of the principles of the Raiffeisen system to Indian conditions has now been thoroughly established. Management is on the whole satisfactory, and, though in some instances the general assembly of members, which is in theory the ultimate governing body, allows its powers to be usurped by the Chairman or the Secretary, the Registrar is able to say that the co-operative spirit is steadily growing. The practice noticed in the report of some Chairmen or Secretaries using the cash balances of a society for their own purposes, though it is said to be usually due only to ignorance and not to dishonesty, is a serious danger, and will require very careful watching and prompt suppression. Any losses incurred in this way might do much to damage the reputation of the societies.

The majority of societies are working satisfactorily, but it is observed that the Registrar in his report classes about 300 societies as "very bad." Early steps should be taken to close these altogether, or to reconstitute them on a sound basis. The financial condition of the generality of the village societies is good on the whole. There has been an increase in the amount of members' deposits, which have risen from Rs. 1,58,993 to Rs. 2,61,581, but they still form only a small proportion, less than one-fifth, of the total working capital. The Registrar notices rigidity as a defect in the existing system of finance. Although the societies have no difficulty in obtaining sufficient money for the ordinary needs of their members, they must lend out all their capital for this purpose, and have none left, until the repayment season comes round, to meet emergent demands for loans. In this respect a co-operative society is seriously handicapped in competing with the *mahajan*, who always has money at command. The expansion of the system of central banks should do much to remedy this difficulty.

The percentage of loans taken by the members of rural societies for productive purposes was 33·91, and for repayment of debts 48·79, while loans taken for social ceremonies, such as marriages, etc., amounted to only 4·36 per cent. These figures, which are very satisfactory, are similar to those of previous years, and show that the co-operative movement in the villages is not leading to extravagance or to any of the dangers of "facile" credit.

The report contains indications that the rural societies are influencing their members in directions other than those which are purely economic. In one thana in the Dacca district, the decrease in both civil and criminal litigation is attributed to the establishment of a co-operative society. In Midnapore, the societies are said to have decided over 100 village disputes during

the year. In Kalimpong, the very interesting minutes of a general meeting of a society show that the discussions ranged far beyond the financial requirements of their members to such subjects as the abuses of *hâts* and the evils of cigarette smoking, for the prevention of which practical measures were suggested. In other areas it is reported that monthly contributions to the village schools by the societies are becoming very common, and that the members display an eagerness to be instructed in such subjects as sanitation and agriculture.

6. Experiments in forms of co-operation other than those relating to credit are not yet numerous. The most interesting is a scheme started by the Mahakali Moslem Bank in the Dacca district at the instance of the Agricultural Department for the joint purchase of bonemeal for use as manure. It affords a good instance of the manner in which the Agricultural and Co-operative Departments can work together to enable the peasantry to take advantage of agricultural improvements which are beyond the means of the individual cultivator, and the Governor in Council hopes that it may be found possible to initiate further schemes of this nature.

7. The process of co-ordinating the divergent methods of work adopted in the two parts of the province, will require careful consideration and cautious handling. While it is desirable that improvements suggested by experience in one area should be introduced into the other, the Governor in Council has no doubt that the Registrar will realize the danger of unduly pressing new methods, however admirable, upon a rural population to whom the unknown or the unusual is always apt to be suspect.

The new Co-operative Societies Act, 1912 (II of 1912), came into force from 1st March 1912. The new rules necessitated by the Act and by the reconstitution of the province are at present under consideration.

8. Finally the Governor in Council desires to place on record his appreciation of the services rendered by the late Mr. Buchan and by Messrs. Scott and J. M. Mitra (the present Registrar of Co-operative Societies and the writer of the present excellent report), all of whom did admirable work during the year. By Mr. Buchan's premature death the province has lost an able and energetic officer whose sound commonsense and keen sympathy have left their impress in a remarkable degree on the movement whose progress he guided for four and-a-half years. Maulavi A. K. Fazlul Huq rendered excellent service as Assistant Registrar in the Eastern Bengal districts, and his resignation has deprived Government of an officer who showed great zeal in furthering the movement. He has recently been appointed an honorary organizer, and his experience of the department will make his work in that capacity especially valuable. His Excellency in Council acknowledges also the assistance rendered by district officials, and his special thanks are due to the honorary organizers and other non-officials who are mentioned in the report. They are still unfortunately few in number, but it may be hoped that the interesting and responsible work involved in the creation of central unions will induce gentlemen of position and education to come forward in larger numbers than at present to assist the movement.

Secretary to the Govt. of Bengal.

RESOLUTION ON THE EMBANKMENT AND DRAINAGE REPORTS FOR THE YEAR 1911-12.

GOVERNMENT OF BENGAL.

IRRIGATION DEPARTMENT.

Dated Calcutta, the 23rd December 1912.

RESOLUTION.

READ—

The Embankment and Drainage Reports for the year 1911-12.

The expenditure incurred on works and repairs (exclusive of book charges for Establishment and Tools and Plant) during the year amounted to Rs. 6,42,335.

2. The total length of embankments of all classes maintained by Government in this Presidency is 1,356 miles and 966 feet, and these protect an area of 3,786,124 acres. These embankments are generally effective against ordinary high floods, but a few are liable to be overtopped during exceptionally high floods.

3. *Floods.*—There were no high floods during the year in any of the rivers, except in the Damodar and Ajai rivers in the South-Western Circle. The floods in the Damodar did no damage to the embankments while the damage to crops in the spill area appears to have been very slight. The flood-level in the Ajai river was only 2 inches lower than the highest recorded flood of 15th July 1899. There were three breaches in the Ajai right embankment (schedule D No. 29), while embankments Nos. 27 and 28 were overtopped at several places. Some damage was done to standing crops and houses.

4. *Breaches.*—Altogether five breaches occurred in schedule D embankments in the South-Western Circle, viz., one in the 13th mile of the Chetua Circuit embankment, one in the 35th mile of the Bhagirathi embankment and three in the 3rd, 4th and 5th miles of the Ajai right embankment.

5. *Surveys and Investigations.*—The survey of schedule D embankments in the Luchmapur subdivision of the Cossye Division was completed during the year. Survey was also made of the schedule D embankments in the Panskura subdivision.

Surveys for the drainage of the country within the Hara basin were completed during the year.

Another survey was also made for the proposed retired line at Diamond Harbour.

The survey of the Moraganga river from Garia to Surjipur was in progress during the year.

6. *Original Works.*—The outlay under this head during the year amounted to the sum of Rs. 27,081 which was chiefly expended on the re-excavation of the Kausiki channel, and on the construction of inspection bungalows at Uttarbhag and Gillarchat and office and quarters for the Public Works Department Subdivisional Officer, Diamond Harbour.

7. *Ordinary repairs.*—The expenditure during the year was Rs. 3,71,803 as against Rs. 4,23,290 in the year 1910-11. The reduction in outlay was due to the fact that there was less expenditure during the year on retired lines.

8. *Retired lines.*—During the year the amount spent on retired lines including breach-filling and flood-damage repairs was Rs. 1,17,361 as against Rs. 1,81,375 in the preceding year.

9. *Works undertaken under the provisions of the Bengal Drainage Act VI of 1880.*—The Dankuni, Howrah, Rajapur and Burrajolla drainage works in charge of the Executive Engineer, Northern Drainage and Embankment Division, were maintained in good order during the year at a cost of Rs. 12,951 against the average amount of Rs. 11,300 fixed for their maintenance. The maintenance charges of all these works were capitalized and included in the capital cost of the projects payable by the persons benefited. As a result, the responsibility of maintaining the works in perpetuity rests upon Government.

10. *Works undertaken under the provisions of the Bengal Sanitary Drainage Act VIII of 1895.*—The only work which has as yet been carried on under this Act is the Magra Hât Drainage Scheme in the 24-Parganas District, the object being to drain the swamps in an area of 290 square miles around Magra Hât within the embankments of the 24-Parganas. The work is estimated to cost Rs. 21,20,966, and the expenditure up to date amounts to Rs. 19,46,580, of which Rs. 1,06,530 were expended during the year. The work is nearly completed.

11. *Drainage works carried out under the provisions of the Bengal Embankment Act II of 1882.*—A second revised estimate amounting to Rs. 1,65,549 for the Argowal Drainage Project in the Midnapore District was sanctioned during the year and the construction of the bridges over the main drainage khal was in progress. The improvement of some minor drainage channels and the raising of the banks of the main drainage khal to the sanctioned height still remained to be done at the end of the year. The total expenditure on the project to the end of the year amounted to Rs. 1,52,588. The work of the extension of the Panchannogram embankment, taken up in 1909-10, was in progress during the year under report, the outlay of the year amounting to Rs. 5,078. For draining a portion of the Tangraberiah basin, the construction of a one-vented sluice at Goredoho on the left bank of the Peali river was nearly completed, the outlay during and to the end of the year being respectively Rs. 7,247 and Rs. 9,184. Work in connection with the three-vented sluice at Alumpur in the 75th mile of the Hooghly left embankment was in progress, the outlay of the year being Rs. 17,647. The construction of a seven-vented sluice at Mahamaya on the right bank of the Moni river at an estimated cost of Rs. 96,084 was taken in hand, and an expenditure of Rs. 5,111 was incurred during the year. A large number of sluices in the schedule D embankments are maintained under the provisions of this Act, at the cost of the estates benefited.

12. *Drainage works carried out at the cost of Government but not under the provisions of any Act.*—The construction of the main drain of the Bagjolla Drainage Scheme with its outfall into the Kristopur canal, which was taken in hand in the previous year for the efficient drainage of certain municipalities in the 24-Parganas District near Calcutta was completed during the year with the exception of the closing of the culvert at its head. The total expenditure to the end of the year was Rs. 73,672 against the sanctioned estimate for Rs. 1,28,439, the outlay of the year being Rs. 40,073. The land charges have not yet been finally adjusted by the Civil Department. The work has proved very satisfactory, and it is expected that, with the improvement of its subsidiary drains, the sanitary condition of the locality will be greatly improved.

The construction of a masonry sluice and a retired line of embankment for the drainage of the Government Estate Tona in the 24-Parganas District was completed during the year. The work was made over to the Collector of the district in September 1911.

13. *Maintenance and Repairs.*—The Bullee bhil drainage works in the 24-Parganas District, the Balliaghye main and branch drains and the 22 khas tahsil khals in the Midnapore District were maintained by this Department.

ORDER—Ordered that a copy of the Resolution be published in the Supplement to the *Calcutta Gazette*, and that a copy thereof and of the appendices be submitted to the Government of India, Public Works Department, for information.

Ordered also that copies of the Resolution and of its appendices be forwarded to the Revenue and Financial Departments of this Government, the Commissioners of the Presidency, Burdwan, Rajshahi, Dacca and Chittagong divisions, the Director-General of Commercial Intelligence, the Superintending Engineers, South-Western, Central, Northern and Eastern Circles, and the Accountant-General, Bengal, for information.

First Forecast of the Spring Oilseed Crops of Bengal, 1912-13.

(NOTE.—On the average of the five years ending 1910-11 the area under linseed in Bengal represents some 7·5 per cent., and that under rape and mustard 22·9 per cent., of the total area under these crops in British India.)

Explanatory.—Three forecasts are issued for the spring oilseed crops. The first forecast deals only with the area sown and the general condition of the crops.

Area sown.—Oilseeds are chiefly grown in the Dacca, Rajshahi and Presidency Divisions. In the other two Divisions the area under the crops is limited. The total area under the crops sown up to now this year (excepting *til* for which separate forecasts are issued) is reported to be 1,573,600 acres against 1,574,900 acres last year.

Character of the season.—The rainfall in September and October was general and sufficient for the sowings of the crops in normal time. The sowings were a little late only in Khulna, Malda and Noakhali, and in parts of Jalpaiguri, Dacca and Chittagong. There were good showers of rain in the beginning of November which generally favoured the growth of the crops. The season has been on the whole favourable, and the present condition of the crops is reported to be fairly good.
